DID YOU KNOW?
Many lawyers balance full-time practice with volunteerism.

DID YOU KNOW?
Many jobs exist outside of the formal recruit!

In 2018, 50% of students found their 2L summer position through a formal recruit, and 50% of students found their 2L summer position through an individual job posting and a self-driven job search! So, you are just as likely to find what you’re looking for within a formal process as you are to find something through individual job postings and self-driven job search.

A formal recruit contains a relatively large number of employers recruiting at one time, but it is important for you to make sure these employers are what you are looking for in a career. Complete self-assessment using the resources in CSM. Many students conduct a self-driven job search alongside the formal recruit.

Need help? Contact the CDO for a counselling appointment and we can help you develop a plan.
