Guide to the usage of this Handbook

The following is a general overview of the structure of this Handbook for the guidance of users. The contents are organised in a number of different sections (see below) each of which has a particular focus. The sections are interlinked by cross-references where relevant.

(a) General Information: This section includes information on the professional status and recognition of the Faculty's degrees, its links with professional bodies and the list of qualifications offered. It also includes lists of the various prizes, medals and scholarships awarded on academic merit and contains information on the criteria for the Dean's Merit List.

(b) Rules for degrees: This section covers the Faculty rules for each of the various degree programmes. These rules should be read in conjunction with the general University rules in the General Rules and Policies Handbook (Handbook 3). Students are expected to acquaint themselves with the rules in both Handbooks and to check annually whether the rules or curriculum requirements have changed since the last edition. Important rules: All students must familiarise themselves with the Degree Rules in this Handbook. In addition, students must refer to Handbook 3, General Rules and Policies and particularly take note of the following:
- rules relating to registration and examinations;
- rules relating to changes of curriculum;
- rules relating to leave of absence;
- rules on Academic Conduct, N.B. the rules concerning dishonest conduct and plagiarism.
Detailed information on the undergraduate entrance requirements can be found in the University Prospectus. The PhD Degree rules are published in Handbook 3, General Rules and Policies.

(c) Departments and Programmes: This section contains entries for each department in the Faculty. Each lists members of staff, a summary of laboratory, workshop and other facilities, the research entities, and the programmes of study administered by each department. The curriculum for each programme (list of required courses) is set out in table form. The curriculum tables must be read together with (cross-referenced to) the lists of courses in the Courses Offered section which is described under (e) below.

(d) Centres/Units established in the Faculty and Centres, Departments, Schools and Units Established in other Faculties: There are entries for the principal Faculty entities/units which do not fall directly under academic departments e.g. the Centre for Research in Engineering Education and the Continuing Professional Development Programme and entries for the centres, units and departments in other faculties which offer courses for students registered in the Faculty. This is cross referenced to the list of courses offered in section (e).

(e) Courses Offered: The full list and descriptions of courses offered by the Faculty, both undergraduate and postgraduate, is set out in this section in alpha-numeric order (i.e. based on the course code prefix) which identifies the department offering the course and the course number. The courses offered by other faculties which are more commonly taken by students in the Faculty of Engineering & the Built Environment are also listed and described. N.B. A key (guide) to the course code system, the credit system and terminology (definitions) is set out at the beginning of this section.
FACULTY OF LAW STATEMENT OF VALUES AND GOALS

We, the staff and students of the Faculty of Law of the University of Cape Town, recognise that we are a community of scholars, striving for excellence in all that we do. We are conscious of the fact that we are part of the broader South African society, and also the African and international academic community. We acknowledge the role played by the law in creating a society that was characterised by oppression and remains deeply divided by inequality.

We commit ourselves to the following goals: teaching and research which is of the highest quality; developing all staff and students to their fullest potential; promoting an institutional culture founded on mutual tolerance, respect, understanding, integrity and openness, one which values our common humanity and which celebrates and promotes diversity. In the pursuit of all these goals we hope to contribute to redressing the inequality and disparity that continues to exist within South African society.

We recognise that the realisation of these goals requires:

- Scholarship that is critical and compassionate, and which explores the potential of the law as a means to achieving justice for all;
- Leadership that is effective and promotes the values of the faculty;
- Accountable, inclusive and transparent decision-making in which staff and students are given the opportunity for effective participation;
- Open and critical debate that protects and promotes academic freedom and university autonomy;
- Provision to staff and students of opportunities and resources necessary for their optimal development.

We will strive to live these values and achieve these goals in our daily activities and exchanges with one another.

Historical Note
The Faculty of Law had its beginnings in the institution of a lectureship in law in 1859 and is the oldest faculty of law in South Africa. The first professor of law, appointed at a salary of £300 per year, was JH Brand, LLD Barrister-at-Law, who left in 1863 to become President of the Orange Free State.

For a detailed account of the history and development of the Faculty of Law see DV Cowen The History of the Faculty of Law in the University of Cape Town, 1859 -- 1959 (Acta Juridica, 1959); Taught law is tough law: the evolution of a South African Law School (1914 -) (Tydskrif vir Hedendaagse Romeins-Hollandse Reg, 1988); DP Visser As durable as the mountain: the story of the Cape Town Law School since 1859 (Consultus, April 1992); and Denis Cowen and Daniel Visser The University of Cape Town Law Faculty: A History 1859 -- 2004 (Siber Ink 2004).

Professional Qualification
The Qualifications of Legal Practitioners Amendment Act of 1997 provides that the LLB is the universal legal qualification for admission and enrolment as an advocate or attorney. Normally those who wish to enter private practice as advocates are required to become members of a Bar Association by undergoing a period of training in pupillage with a practising member of the Bar and by sitting an admission examination. Before admission as an attorney, an LLB graduate must serve as a candidate attorney with a practising attorney. Attendance at a practical legal training course or performance of community service may reduce the period required to serve articles. Thereafter candidates write a professional examination set by the relevant provincial Law Society. The Act of Parliament regulating admission to practise law is being revised and a new law is expected in the near future, which may change these requirements. Obtaining the LLB does not entitle non-citizens of South Africa to be admitted to practise in this country.

Language proficiency in the legal profession
There are no statutory language requirements for the practice of law. Language proficiency is, however, very important for the study and practice of law. Prospective lawyers are encouraged, therefore, to include courses in the national languages in their curricula. The four-year undergraduate LLB requires the inclusion of languages in its curriculum.

QUALIFICATIONS IN THE FACULTY

The programmes in the Law Faculty are the Basic Legal Education Programme (leading to the LLB degree), the Advanced Legal Education Programme (leading to the LLM degree or a Postgraduate Diploma in Law) and the Practical Legal Education Programme (leading to a Certificate in Legal Practice).

Basic Legal Education programme
The LLB degree provides students with a sound knowledge of the general principles of the South African legal system, and an ability to use legal materials effectively. Graduates should be able critically to assess, interpret and apply the law and have the historical, comparative and jurisprudential background that is essential for a thorough and critical understanding of law and legal institutions.

These courses are offered in three streams: a three year graduate LLB stream, a five or six year combined Law and Humanities or Law and Commerce LLB stream, and a four year undergraduate LLB stream.

In each of these streams the courses are graded into three levels.

- At the Preliminary Level the courses acquaint students with both the background to and the foundations of the South African legal system, with legal thinking and analysis, and with an understanding of the role and function of law. In addition, particular attention is paid to reading and writing skills required for the senior courses.
- The Intermediate Level courses provide instruction on a more advanced level in a broad range of core subjects.
- The Final Level completes the degree and students are able to specialise by choosing from a range of optional courses.

Each level of the LLB degree curriculum includes a skills component which forms part of the degree programme and which cumulatively teaches students generic practical skills such as problem solving, analysis, research and communication skills, as well as practical legal skills such as drafting of particular kinds of legal documents and legal argumentation, both written and verbal. In particular, at the Final Level, a compulsory integrated assessment project draws on elements of the skills component and courses studied in the earlier parts of the curriculum. Law students are required in the Intermediate Level to make constructive use of the knowledge and skills they acquire by contributing to the community through Legal Aid, Community Service, Shawco, Rape Crisis, Parliamentary Monitoring Group or similar outreach activities.

Graduate LLB stream
Students enter this stream after having completed a bachelor’s degree without law subjects. Students who have done a full degree in another discipline will have had an opportunity to develop their critical and analytical skills in a non-legal environment, and therefore will be equipped to benefit from legal studies.

Five or six year combined Law and Humanities or Law and Commerce LLB stream
Students enter this stream with the intention of following an undergraduate programme in Law and Humanities or Law and Commerce, leading to a BA, BSc or a BCom/BBusSc and thereafter a two
year graduate LLB. The objective of a broad-based education is achieved in this stream by including
cognate courses which ensure that the student has a thorough grasp of at least one discipline outside
of law.

**Four-year undergraduate LLB stream**
Students enter this stream as matriculants and complete the LLB degree in four years. Humanities
courses are included in the curriculum so as to fulfil the objective of providing UCT Law graduates
with a well-rounded broad-based legal education.

**Extended streams**
All streams include the possibility of an extended curriculum for the purpose of accommodating
students from educationally disadvantaged backgrounds.

**Advanced Legal Education programme**
This programme provides an opportunity for law graduates to pursue their academic interests at a
higher postgraduate level (towards an LLM or Postgraduate Diploma) or for any other suitably
qualified graduate to gain high-level knowledge of a particular field of law (through an MPhil degree)
by way of coursework (in a very wide range of subjects) and an associated dissertation.

The Faculty also offers degrees at an advanced level which require satisfactory completion of
independent research and writing.

**Practical Legal Education programme**
The School for Legal Practice, established in 1992, is a joint project of the Law Society of South
Africa and the Law Faculties of the Universities of Cape Town, Western Cape and Stellenbosch. The
object of the School is to provide law graduates with applied skills in legal practice, thereby also
improving access to the legal profession.

Two intensive full-time programmes are offered each year, the first commences in mid-January and
runs to mid-June, and the second from late June to the end of November. A Night School is also
offered which runs from late January to the end of November.
DEPARTMENTS IN THE FACULTY

The Departments of the Faculty are located in the Wilfred and Jules Kramer Law School Building, Middle Campus. There are also Research units attached to each of these departments. The School for Legal Practice falls under the office of the Dean.

Centre for Comparative Law in Africa

The Centre for Comparative Law in Africa (CCLA) was established in 2011 to promote the study of comparative law and draw on the strengths of comparative methodology to research into the multifaceted field of law in Africa. The Centre presents an opportunity to develop a discipline that lends itself to optimal application in the pluralistic legal frameworks within which life is lived in
Africa. In its mission to contribute to the development of comparative law in Africa, the strategy of the CCLA is to establish the field at UCT, build capacity in it across the continent through academic programmes, apply comparative law expertise in consultancies and disseminate new knowledge in comparative law in Africa through conferences, publications and professional networks. Its location within the Department of Commercial Law recognises the centrality of comparative law to ongoing efforts at economic integration on the African continent. The CCLA offers an LLM and a postgraduate diploma specialising in Comparative Law and conducts research on a variety of themes that apply the comparative methodology. The CCLA also provides support for Africa-focused doctoral research and undertakes capacity-building programmes in various issues of law in development in Africa that require comparative methods.

**Intellectual Property Unit**

The Intellectual Property Unit (IP Unit) was set up in 2007 as a centre for policy research and teaching in intellectual property law. The IP Research Unit believes that it is important that developing countries participate in the evolution of the Intellectual Property policy and law systems to ensure that any changes take full account of the needs of emerging economies and therefore can benefit them.

The Unit and its members focus on examining the link between IP, innovation, development and public policy. The objective of the Unit is to create a leading IP programme in Africa that translates cutting edge research into excellent teaching and increases the number of highly-skilled African IP experts. Important issues range from the way in which we access and share knowledge to strategies how to commercialise inventions and avoid misappropriation. IP is a key determinant of human development, economic growth and competitiveness; and IP rules impact on various public policy areas including health, research and development, bio-diversity, clean technologies, food security, and education.

**Shipping Law Unit**

The Shipping Law Unit has been in operation since the beginning of 1993. The Unit was set up within the Department of Commercial Law to accommodate part-time and full-time studies in Shipping Law at higher postgraduate level, and to support the Maritime Law option offered to Final Level LLB students. The Shipping Law Unit provides postgraduate and higher postgraduate tuition and research in Admiralty law and practice and in all private law aspects of the law relating to the sea and ships. It serves as an information and advice centre to the shipping industry, and monitors developments in maritime law and policy in South Africa and abroad. The Unit co-operates closely with the Institute of Marine and Environmental Law which handles the public law elements of the Law of the Sea and related subjects.

Tax Institute for Fiscal Research

The Tax Institute for Fiscal Research is an interdisciplinary grouping that draws together academics from UCT’s Faculties of Law and Commerce. It was founded in 2015. The Institute’s vision is to be Africa’s leading academic research institute in fiscal matters; to draw on global knowledge and research networks in developing fiscal knowledge for the benefit of developing countries, particularly the African continent and South Africa; to provide a globally recognised platform for engagement in fiscal matters, with an emphasis on a developing country / BRICS context; to maximise UCT’s existing research and teaching capacity in the field of taxation and to develop and retain African expertise within Africa. Several large research projects, consultancy work for government bodies and private entities are all undertaken in the Institute. Academic staff associated with the Institute teach a substantial offering of tax courses across the Faculties of Law and Commerce, as well as organising and participating in conferences, seminars and public engagements. The Institute’s activities are supported by a comprehensive cooperation agreement concluded with the International Bureau of Fiscal Documentation (IBFD).

UCT Law Clinic

The UCT Law Clinic operates as a fully functioning law practice run by a professional staff of experienced practising attorneys who litigate in the District, Regional and High Courts on behalf of indigent people who would otherwise not have access to the law.

Final year students who work at the Law Clinic register for the Legal Practice course (DOL4500H) which allows them the opportunity to work as legal advisors under the supervision of the Clinic’s attorneys. The students take instruction from clients and learning is largely experiential. Skills learnt include how to consult and communicate with clients, communication and organisational skills, file management, trial advocacy, just to list a few.

The Law Clinic is accredited by the Cape Law Society and adheres strictly to its guidelines with regard to professional conduct. The Law Clinic may be contacted at uctlawclinic@uct.ac.za or on the following number: 021- 650 3775.

The Centre of Criminology, the Institute of Marine and Environment Law, the Centre for Law and Society, the Land and Accountability Research Unit, the Refugee Rights Unit and the Democratic Governance and Rights Unit are all linked to the Department of Public Law.

The Department of Public Law and most of its research units are housed in the Kramer Law Building, 5th and 6th Levels, on Middle Campus.

The letter code for the Department is PBL.

The Department can be contacted by email at Rene.Francke@uct.ac.za.

Centre for Law and Society (previously the Law, Race and Gender Unit)

The Centre’s work is multi-levelled: it includes research, mobilisation and teaching. It is explicitly committed to the transformative potential of the South African constitution. We host a vibrant mix of young and established researchers, working across a range of disciplines, including development studies, law, anthropology and history, and we actively support the work of public intellectuals. The Centre seeks to create a space of learning, self-reflection and transformation necessary for a new generation of lawyers, researchers and activists to contribute to the shift in legal culture that is so necessary in our country, and other similarly situated contexts. CLS adopts a model of social change that foregrounds social problems at the nexus between social mobilisation, evidence-based research, and advocacy.

Centre of Criminology
The Centre is a niche research unit within the Faculty of Law. The work of the Centre is focussed around some of the most pertinent safety and security challenges facing South Africa and Africa more generally within the overall context of an increasingly globalised world.

This work includes a strong emphasis on research in: (1) developments and challenges for policing, both public, private and community driven; (2) organised crime and illicit trafficking in South Africa and Africa, with a focus on the evolution of criminal networks in fragile states and their impact on governance, democracy, livelihoods and the environment; (3) criminal justice policy challenges, with an emphasis on developing country contexts; and (4) violent crime, with particular attention to its impact on youth and women.

The work of the Centre recognises the critical importance of addressing safety issues as a core challenge of holistic development. To do this requires stretching the boundaries of criminology in ways that will enable it to recognise and respond to the changing international, regional and local landscape of risk.

Refugee Rights Unit

The Refugee Rights Unit was founded in 1998 as a Project within the UCT Law Clinic, aimed at providing legal support services to the growing number of refugees and asylum seekers in South Africa. It has since evolved into a fully independent unit, with four main components: the Unit’s Refugee Law Clinic provides direct legal services to thousands of refugees and asylum seekers in the Western Cape each year; the Unit conducts applied research in refugee law and related topics; it teaches refugee law to undergraduate law and master’s students within the Department of Public Law; and, it undertakes a significant amount of targeted advocacy and training of government officials, the judiciary, civil society partners and refugee communities.
The close relationship between the Refugee Law Clinic’s practice, the Unit’s teaching of Refugee and Immigration Law courses to LLB and LLM students, and the Unit’s research is a unique aspect of the Unit’s work. The Refugee Law Clinic provides the Unit with a close link to the practical application of refugee law in South Africa and therefore directly informs and supports the Unit’s teaching activities and research outputs. Students often engage with the most current issues facing refugees and asylum seekers in South Africa, including those involved in the strategic litigations undertaken by the Refugee Law Clinic. Students are also encouraged to volunteer at the Refugee Law Clinic in order to gain practical experience and fulfil community service requirements. The Unit’s teaching component includes the direct supervision of undergraduate and graduate level research work in the field of refugee and immigration law.

The Working Paper Series (http://www.refugeerights.uct.ac.za/research/working_papers/) publishes the research reports of the Refugee Rights Unit, occasional papers of the Unit members and versions of some of the papers presented by the Refugee Rights Unit members. A key focus of the Working Papers is the promotion of the rights of refugees in South Africa and the global South.

The Refugee Rights Unit remains not only committed to directly assisting refugees and asylum seekers but also in teaching and engaging in research which can be used to promote and further the law in this area and as an advocacy tool in the future. Further details on the Refugee Rights Unit may be obtained from the Refugee Rights Unit, Department of Public Law, Faculty of Law, University of Cape Town, Private Bag X3, Rondebosch, 7701, Telephone +27 21 650 5632, Fax: +27 21 650 4107 or Web: http://www.refugeerights.uct.ac.za

Land and Accountability Research Centre

**Land and Accountability Research Centre (LARC)**
LARC is a research and advocacy unit concerned with power relations, and the impact of national laws and policy in framing the balance of patriarchal and autocratic power within which rural women and men struggle for democratic change at the local level. There has recently been a push from government to introduce laws and policies giving traditional leaders unaccountable powers over “subjects” living in the former homeland areas of South Africa. The objective is to hold back traditional leadership laws that threaten rural democracy and propose alternative laws and policies that promote rural democracy and are consistent with living law.

The Brand Van Zyl Law Library is located in the Wilfred & Jules Kramer Law School building. We have South African, foreign, international and comparative legal materials, including monographs, law reports, statutes and journals. We also offer electronic resources, including indexes and full-text databases of case law, statutes and journal articles.

Our Brand van Zyl antiquarian collection, reputedly the finest outside Europe and the USA, comprises about 5,000 volumes chiefly on Roman-Dutch Law, including many 17th- and 18th-century legal works.

Our facilities include the Postgraduate Research Commons, the computer Training Room, private and group study carrels, and multifunctional printers. We have 350 seating spaces, 90 computers, and power and data sockets for 30 laptops. Students can access our electronic resources on and off campus, the internet and word processing software.

We offer a reference service in person and electronically. We have Libguides, Faculty research guides and Youtube videos. We supplement our training to students with Computer-Assisted Legal Instruction software, Camtasia videos and Articulate quizzes. Students can also access the RefWorks and EndNote bibliographic management tools. We offer a current awareness service to academics and students via Legalbrief.

Computer Resources

The Law Faculty believes that all its graduates should be computer literate and must know how to use the Internet and electronic legal resources for research and communication. Each and every student registered in the Faculty has a UCT email account, along with the use of the computers in the Law Faculty email bar in the Kramer Law building (on level 2) and in the Brand Van Zyl Law Library (level 2 and 1). Among the facilities available to students are word-processing for assignments, internet and email, and access to a range of South African and international electronic legal databases.
Students in the Faculty are offered training in general computer knowledge and word processing skills, also in the use of a wide range of electronic legal resources, such as LexisNexis and Jutastat. Many of these resources are listed on the Law Library's homepage at http://www.lib.uct.ac.za/law.

The Law Faculty has a comprehensive website which gives details about degrees and courses offered in the Faculty, about the staff and their teaching and research, and about the Brand Van Zyl Law Library and the services offered.

The Law Faculty homepage also supports the Constitutional Assembly Database of information relating to the drafting of South Africa's 1993 and 1996 Constitutions. Visit the Law Faculty's homepage at http://www.law.uct.ac.za
STRUCTURE OF COURSE CODES

Every course described in this Handbook has a course name and a corresponding course code. The code structure is uniform, and it gives important information about the course. Each code, e.g. DDD1nnnS, has eight characters, where

- **DDD**: first 3 letters of the code denote the name of the Department offering the course
- **1**: is a number representing the year of study in which the course is usually taken
- **nnn**: is a 3 character number that identifies the course uniquely
- **S**: is a single alpha character, specifying the time period during which the course is offered

The following are used:
- F: first semester course
- H: half course taught over whole year
- Q: first semester distance course
- R: second semester distance course
- S: second semester course
- W: full course, year long
- Z: non-standard period

The following examples show how this works:

**RDL2002H**  
Law of Property  
RDL designates a Private Law course  
2 designates a second year course  
002 character number unique to course  
H designates a half course, over the whole year

**PBL4604F**  
Social Justice and the Constitution  
PBL designates a Public Law course  
4 designates a fourth year course  
604 character number unique to course  
F designates a first semester course

RULES FOR LLB DEGREE STREAMS

The following are rules for specific study programmes in the Faculty. They must be read in conjunction with the general rules for degrees and diplomas in Book 3: General Rules and Policies of the University of Cape Town.

The following are rules for specific study programmes in the Faculty. They must be read in conjunction with the general rules for degrees and diplomas in Book 3: General Rules and Policies of the University of Cape Town.

NOTE: The rules in this section apply to all students who registered for the LLB for the first time in 2012 or who repeated the preliminary year in 2012. Students who registered for the LLB for the first time up to and including 2011 should refer to Rules for LLB Degree Streams (up to 2011) in the 2015 Law Faculty Handbook.

Admission and Curriculum Rules

The Basic Legal Education Programme is offered in three streams:
(a) the three year graduate LLB
(b) the two year graduate LLB
(c) the four year undergraduate LLB

Admission requirements for these streams as well as for the combined Law and Humanities and Law and Commerce LLB streams may be found in Book 1: Undergraduate Prospectus.

Transferring students

Internal
A UCT student who has not been excluded from another faculty within UCT may be considered for admission to the Faculty of Law for the purpose of taking or completing the LLB degree, provided the applicant satisfies the requirements for admission to the degree programme into which the student would be transferring. Successful applicants may be granted credits or exemptions or both for courses already completed, up to a maximum of four full courses (or the equivalent).

External
A non-UCT student who has not been excluded from another university may be considered for admission to the Faculty of Law, provided the applicant satisfies the requirements for admission to the degree programme into which the student would be transferring. Successful applicants may be granted credits or exemptions or both for courses already completed, up to a maximum of four full courses (or the equivalent). Credits and exemptions will only be granted for courses completed at another institution if the Faculty is satisfied that the courses taken elsewhere are substantially equivalent, in both content and standard, to the courses offered at UCT. Such transferring students will be required to complete the remaining courses prescribed for the degree at this University over a period of not less than two years.

**Research Component (elective courses and research paper) .............. 36**

**Total credits for fifth year** ............................................. **180**

**Total credits for the undergraduate LLB stream** ....................... **660**

*Note: FP4.2 – FP4.7 and FP5.1 – FP5.3 apply also to the extended undergraduate LLB curriculum.*

**FP6.1** All streams of the curriculum for the LLB degree have a skills component which forms part of each level of the degree programme. The skills component is compulsory. Candidates in the respective levels of the degree must comply with the requirements of the skills component tasks. For the purposes of design and co-ordination, the four-year LLB stream pattern is used.

**FP6.2** In each academic year the following are included:
- writing skills (including essay work, opinion work and drafting)
- computer skills
- problem solving
- analysis
- research (including library skills)
- oral presentation (including preparation for debates, seminars and moots)

**FP6.3** In the FIRST year, there should be emphasis on:
- writing skills
- problem solving
- reading skills

**FP6.4** In the SECOND year, there should be emphasis on:
- problem solving
- analysis including critical analysis
- oral presentation

**FP6.5** In the THIRD year, in addition to fulfilling course-specific requirements such as assignments and tests every student must:
- write one essay and one opinion
• participate in a moot
• attend all tutorials (or submit written work at the discretion of the course convener)

FP6.6 In the FOURTH year, there should be:
• interviewing
• an Integrative Assessment Project. This project will test the accumulated skills and abilities of students to demonstrate an overall grasp of South African law and how it operates in real situations by posing a problem which integrates a variety of areas of law taught as separate subjects earlier in the curriculum.

Progress rules for LLB degree streams

Graduate LLB stream

Note: In the following rules provision is made for the permission of Senate to deviate from the rules. Senate’s authority to permit deviations from the rules governing the curriculum of an LLB student is delegated to the Admissions, Concessions and credits Committee of the Law Faculty.

FP7.1 A candidate who has only one half course outstanding from the Preliminary Level may proceed to the Intermediate Level of study and repeat the outstanding half course in that year; and a candidate who has only one course (or two half courses) outstanding from the Intermediate Level may proceed to the Final Level of study and repeat the outstanding course (or two half courses) in that year. Additional courses may only be carried with the permission of Senate.

NOTE: Such candidates are advised that they must check lecture timetables to ensure that they do not register for courses inducing clashes either during the year, or in the examinations. Students are required to fulfil all course requirements, including attendance, when repeating a course.

FP7.2 A candidate who has more than
(a) one half course outstanding from the Preliminary Level may not register for more than four full courses or the equivalent, which must include the outstanding course(s) from the Preliminary Level; or
(b) one course (or two half courses) outstanding from the Intermediate Level may not register for more than four full courses or the equivalent, which must include the outstanding course(s) from the Intermediate Level.

NOTE: With permission of the relevant course convener and provided he or she is representing the Faculty at a national, regional or international moot court competition, a student at Intermediate Level may register for DOL3000X Moot Competition. The student may be credited with 9 NQF credits and may be exempted from a seminars-and-research-paper elective (Moot Caput option) in the Final Level of the LLB.

Combined undergraduate/graduate stream

A student in the combined stream must follow the curriculum as set out below subject to the rules of the Humanities or Commerce Faculties. Please note that students are not permitted to register for senior law courses unless the pre-requisites are met. See the syllabus section in the relevant Faculty handbook for details.
RULES FOR LLB DEGREE STREAMS

Four year undergraduate LLB stream

FP8.1 A candidate who has only one half course outstanding from the first or second year may proceed, with permission of Senate, to the second or third year respectively and repeat the outstanding half course in that year. *This provision applies in respect of non-law and law courses inclusively.*

A candidate who has only one course (or two half courses) outstanding from the third year may proceed, with permission of Senate, to the fourth year of study and repeat the outstanding course (or two half courses) in that year.

*NOTE:* Such candidates are advised that they must check lecture timetables to ensure that they do not register for courses inducing clashes either during the year, or in the examinations. Students are required to fulfil all course requirements, including attendance, when repeating a course.

FP8.2 A candidate who has failed more than one half course in the first or second year, or a candidate who has failed more than one course (or two half courses) in the third year, may not register for the set of courses prescribed for the second, third or final year of study (respectively) but may, nevertheless, register for not more than four full courses or the equivalent, which must include the course(s) outstanding from the previous year of study.

*NOTE:* With permission of the relevant course convener and provided he or she is representing the Faculty at a national, regional or international moot court competition, a student at Intermediate Level may register for DOL3000X Moot Competition. The student may be credited with 9 NQF credits and may be exempted from a seminars-and-research-paper elective (Moot Caput option) in the Final Level of the LLB.

Extended LLB stream

FP9.1 Except with permission of Senate, a candidate may not register for any course prescribed for the second year of study unless he or she has completed all the courses prescribed for the first year of study.

FP9.2 Except with permission of Senate, a candidate may not register for any course prescribed for the third year of study unless he or she has completed all the courses prescribed for the second year of study.

FP9.3 Except with permission of Senate, a candidate may not register for any course prescribed for the fourth year of study unless he or she has completed all the courses prescribed for the third year of study.

FP9.4 Except with permission of Senate, a candidate may not register for any course prescribed for the fifth year of study unless he or she has completed all the courses prescribed for the fourth year of study.

*NOTE:* With permission of the relevant course convener and provided he or she is representing the Faculty at a national, regional or international moot court competition, a student at Intermediate Level may register for DOL3000X Moot Competition. The student may be credited with 9 NQF credits and may be exempted from a seminars-and-research-paper elective (Moot Caput option) in the Final Level of the LLB.

FP9.5 Notwithstanding the provisions of Rules FP9.1, FP9.2, FP9.3 and FP9.4, a candidate who has only one half course outstanding from the first, second or third year may proceed, with permission of Senate, to the second, third or fourth year respectively.
and repeat the outstanding half course in that year. *This provision applies in respect of non-law and law courses inclusively.*

A candidate who has only one course (or two half courses) outstanding from the fourth year may proceed, with permission of Senate, to the fifth year of study and repeat the outstanding course (or two half courses) in that year.

**NOTE:** Such candidates are advised that they must check lecture timetables to ensure that they do not register for courses inducing clashes either during the year or in the examinations. Students are required to fulfil all course requirements, including attendance, when repeating a course.

**FP9.6** In addition to the provisions of Rules FP9.1, FP9.2, FP9.3 and FP9.4, a candidate who has failed more than one half course in the first, second or third year, and a candidate who has failed more than one course (or two half courses) in the fourth year, may register for not more than four full courses or the equivalent, which must include all the courses outstanding from the previous year of study.

**General progress rules for all streams**

**Maximum number of courses in any year**

**FP10.1** Except with permission of Senate, a candidate may not register for more than the equivalent of:

(i) nine half courses at the Preliminary Level
(ii) twelve half courses at the Intermediate Level
(iii) fourteen half courses at the Final Level.

**NOTE:** For the purposes of this rule, year 3 of the undergraduate extended curriculum stream is regarded as Preliminary Level.

**FP10.2** Notwithstanding FP10.1 a student may take Humanities courses offered in the Summer Term.

**Minimum requirements for re-admission**

**FP11.1** A candidate may be refused permission to renew his/her registration in the Faculty if he/she fails:

(i) the equivalent of four half courses or more at any level; or
(ii) to complete all the courses prescribed for the degree within the prescribed time plus two years.

**FP11.2** A student on an extended curriculum stream may be refused permission to renew his/her registration in the Faculty if he or she fails the equivalent of three half courses.

**NOTE:** *F16.1 Supplementary examinations rule applies before the FP11 Minimum requirements for re-admission takes effect.*

**FP12** A student who is refused permission to re-register in the Faculty may appeal to the Faculty Readmission Appeal Committee in accordance with procedures laid down by Senate. The decision of the Faculty Readmission Appeal Committee will be final and will not be subject to further review or appeal.
Absence from examinations
FP13.1 A student who fails to write the examination in a course for which he or she is registered will be deemed to have failed the course for the purposes of the minimum requirements for re-admission.

FP13.2 Senate may grant permission to a student to write a test on a different day where he or she is unable to write for medical reasons, or has religious objections, or political objections, or other good cause for not writing on the scheduled day or days. The grant of permission is entirely at the discretion of Senate, irrespective of the grounds (including medical) on which the application is made. The application must be made to the Dean within 7 days of the test. Exemption from a test or other course requirement is a concession to depart from degree requirements (see FP20).

Subminimum mark in final examinations
FP14 A candidate must obtain a sub-minimum of 45% in each University examination in a course in order to obtain credit for that course, subject to Rule FP15.

Oral examination
FP15.1 A candidate in his or her final year of study has the right to an oral examination in any course which he or she has failed (because he or she failed to obtain a mark of 50% overall or failed to obtain a mark of 45% in the final examination) if he or she has:
(i) scored 47% or more overall in that course and
(ii) scored 45% or more in the final examination in that course.

FP15.2 A candidate must be given at least three days’ (72 hours) notice of any oral examination.

FP15.3 Where possible, the external examiner will be present at an oral examination. If the external examiner is not able to be present, another examiner external to the course, who may be a member of staff, must be present.

NOTE: Oral examinations may be held over a weekend.

Supplementary examinations
FP16.1 Senate may permit a candidate to write supplementary examinations in the equivalent of three half courses in any one year, provided that he or she has reached a sufficiently high standard when failing such course(s).

The decision on whether to award a supplementary examination will be taken by Faculty Examination Committee on the recommendation of the Head of Department in which the course is offered. Students who are granted supplementary examinations will be required to re-write the whole formal examination component, including all papers, practicals, etc., which constituted the original formal examination component.

Deferred examinations
FP17.1 Deferred examinations on medical or compassionate grounds are considered by a committee established by Senate for this purpose in terms of the general university rules. (see G25.1 in “General Rules for Degrees”, Handbook 3 General Rules and Policies). If the deferred examination is granted, the candidate will be required to write only those portions of the original examination which he or she missed.
FP17.2 Application must be made on the prescribed form obtainable at the Records Office in the Masingene Building, within seven days from the first examination (written, oral, or practical) which the student missed or was unable to complete.

FP17.3 A student who becomes ill during an examination must proceed directly from the examination venue to the Student Health Service unless the nature of the illness makes this impossible.

FP17.4 Misreading of the examination timetable will not be condoned or accepted; neither is it a ground for a deferred examination. (See G18.9 in “General Rules for Degrees”, Handbook 3 General Rules and Policies.)

Distinction

FP18 The degree may be awarded *cum laude* or *magna cum laude*.

FP18.1 For the degree to be awarded *cum laude* a candidate must:
(i) complete the curriculum in the minimum time without failing any course, unless such failure is condoned by Senate;
(ii) obtain an average of 70% in all law courses completed at this University; and
(iii) obtain a First Class pass in at least six full law courses or the equivalent.

FP18.2 For the degree to be awarded *magna cum laude* a candidate must:
(i) complete the curriculum in the minimum time without failing any course, unless such failure is condoned by Senate;
(ii) obtain an average of 75% in all law courses completed at this University; and
(iii) obtain a First Class pass in at least nine full law courses, or the equivalent.

FP18.3 In the case of a candidate who has transferred from another university, Senate may in exceptional circumstances depart from the Rules relating to the number of courses for which a First Class pass must be obtained and award a degree *cum laude* or *magna cum laude*. Senate may do so only if, after having reviewed the academic record of the candidate at such other university, Senate is satisfied that the candidate would have fulfilled the requirements for the degree to be so awarded if he or she had completed the degree at this University.

*NOTE:* For an explanation on how averages are computed, please refer to the entry on “Dean’s Merit List”.

Concurrent registration

FP19 Except with permission of Senate, a student may not register for any course taken at another university in the same year during which such student is registered at the University of Cape Town.

Deviations from the rules

FP20 Senate may, on the recommendation of the Dean after consultation with the Head of Department concerned, permit a deviation from the rules governing the curriculum of a student. A student may apply for such deviation by timeously submitting to the Dean a completed concession application form, obtainable from the Faculty Office.
Rules for LLB Degree Streams

**NOTE:** Senate’s authority to permit deviations from the rules governing the curriculum of an LLB student is delegated to the Admissions, Concessions and Credits Committee of the Law Faculty.

**Revision of the rules**

FP21 Senate may at any time revise any rule.

**Pattern of courses for the LLB degree streams**

**NOTE:** In the absence of compelling circumstances a student may not register for the following optional courses in Intermediate Level:

18 NQF credits at HEQSF level 5
Convener: Dr H Twiddle
Course entry requirements: None
Course outline:
What is ‘literature’ and how does it work? How can we read and write critically? What can close
attention to plays, novels and poems tell us? How can we trace the shift from ‘English literature’ to
‘literature in English’ in a 21st-century world? This introduction to literary studies exposes students to
a range of critical tools and methods for reading and writing about texts in the most interesting and
thought-provoking ways possible. This course aims to introduce students to literary and rhetorical
terms, and to basic issues in literary studies. Different literary genres will be explored and analysed,
including the novel, poetry and drama. Students will be introduced to different kinds of critical writing
and will engage in honing their own writing skills.
Lecture times: 2nd period, Monday, Tuesday and Thursday.
DP requirements: All written work to be handed in and at least 75% attendance at tutorials.
Assessment: Lecture series: two-hour examination counts for 50% of the final mark; tutorial
classwork counts for 50%. NOTE: credit will not be given for both ELL1013F and ELL1009F

ELL1016S  ENGLISH LITERARY STUDIES II
18 NQF credits at HEQSF level 5

Course outline:
It is a compulsory requirement for the LLB degree that, during the course of their degree, all Law

service provider is one that is approved by the Law Faculty’s Community Service Committee and

service providers and organisations that are linked to Law Faculty based approved service providers
through which services are offered must also be approved by the Law Faculty’s Community Service

four year undergraduate LLB programme. Once students have completed a minimum of 20 hours they
must complete the official timesheets and deliver these to the servicing officer for verification,
signature and uploading. Students who have not completed all 60 hours of community service will not
be permitted to graduate.
This course does not attract a fee. Details of approved service providers are available from the
Community Service Vula website. Queries should be directed to Dr J Yeats, Room 5.05, Kramer Law

*Final Level, half course, first semester, two lectures per week.*
9 NQF credits at HEQSF level 8
Convener: Associate Professor T L Gutuza
**Course entry requirements:** All Preliminary and Intermediate Level courses to have been completed.
Course outline:
Every area of the law affects understanding and practical application of tax law. The study of tax law is therefore introduced in the final stage of the LLB curriculum.
Taxation is complex because it overlaps all fields of the law, draws on other disciplines, transcends national borders, affects every commercial transaction and often influences societal behaviours.
This course introduces the subject of tax law. It seeks to illustrate the interrelation of tax law with other fields of law by focussing on primary themes and structural challenges faced by a tax system.
In much of the coursework, the emphasis will be on the South African income tax. A selection of fundamental features of the South African income tax will be considered, mainly through critical evaluation of case law. Key jurisdictional concepts comprising the source and residence basis of income taxation will be considered. The course will analyse the statutory and jurisprudential frameworks for the determination of taxable income, including the notion of income, the distinction between capital and revenue receipts and the deductibility of expenditure and losses.
At the end of this course students are expected to be able to start to identify the broader relevance and impact of tax law.

Course entry requirements: All Preliminary and Intermediate Level courses to have been completed.
Course outline:
This course builds on Tax Law A as a further introductory course for law undergraduates on the subject of tax law.
The focus of the course is on legislation as the primary source of tax law. In much of the coursework, the emphasis will be on the South African income tax legislation.
Because the focus is on legislation, the course is introduced by a recapitulation of the legal framework for statutory construction. Throughout the course, the emphasis will be on development of the competencies required to use revenue legislation in a responsible manner.
A selection of features of the South African Income Tax Act, 58 of 1962, will be considered. The relevant provisions are categorised into those dealing with the main tenants of the taxation of individuals, companies and other vehicles such as trusts and partnerships. Selected issues affecting the taxation of corporate income will be considered. In addition, the legislation imposing tax on capital gains will be dealt with, in overview.
The course is concluded by a consideration of the various common law and statutory measures that address tax evasion and tax avoidance. Brief consideration will be given to common legitimate tax planning techniques.

*Final Level, half course, first semester, two lectures per week.*

9 NQF credits at HEQSF level 8

**Convener:** Associate Professor D Collier and Dr K Idensohn

**Course outline:**

The regulation of commercial activities is seen as a necessary measure to manage risk and mediate the conflicting interests of parties. This course in regulation and governance introduces students to (i) basic economic perspectives on regulation and governance and global trends in this regard; (ii) basic sociological perspectives on the regulation of commercial activities; which will provide students with an understanding of various regulatory models – from the traditional command-and-control to more reflexive/responsive models – and will equip students with the tools to critique the contemporary regulatory regime and its impact on commercial activity.

**Course outline:**

In this course we examine the regulation of competition under the ‘new’ Competition Act 89 of 1998. The focus of the course is on the statutory regulation of competition and the underlying policy considerations which the Act aims to address. In particular, we examine the practices that firms are prohibited from engaging in under the Act, and the way in which the Act regulates the merger of firms. The content of the Act has been heavily influenced by European and American Antitrust Law and practice. Since the South African competition authorities have not yet had an opportunity to develop an extensive jurisprudence of their own, we look to comparative sources for guidance as to how the Act might come to be interpreted and applied.

9 NQF credits at HEQSF level 8  
**Convener:** Professor H J Scott  
**Course entry requirements:** All Preliminary and Intermediate Level courses to have been completed.  
**Course outline:**  
This course affords Final Year LLB students the opportunity to pursue further the study of Roman law begun in Preliminary Year with Comparative Legal History. It centres on the close reading and analysis of selected titles from Justinian’s *Digest* (in translation) in the areas of sale, unjustified enrichment, damage to property and injury to personality, with the assistance of selected literature (in English).  
The principal aim of the course is to provide students with the opportunity to deepen and refine their knowledge of the Roman law as it was in the high classical period. However, there is also a comparative goal: knowledge of what was achieved by the classical jurists affords insight into modern legal systems, particularly those which have their roots in Roman law. Finally, the course seeks to promote a deeper understanding of key doctrinal issues in modern South African private law, building on the Contract and Delict courses completed in Intermediate Year and complementing the optional final-year course Unjustified Enrichment.  
*Please note that a knowledge of Latin is not required.*

9 NQF credits at HEQSF level 8  
**Convener:** Professor H J Scott  
**Course entry requirements:** All Preliminary and Intermediate Level courses to have been completed.  
**Course outline:**  
Unjustified enrichment constitutes the third part - with contract and delict - of the law of obligations. Thus it is essential to an integrated understanding of private law. Moreover, during the last twenty years it has emerged as an important area of commercial litigation throughout the common-law world, and has become the focus of considerable comparative private-law scholarship, especially in England, Scotland, Canada, Australia and most recently the United States. South Africa has not been immune to these trends: enrichment is increasingly the subject of litigation, not only in the High Courts and Supreme Court of Appeal but now also in the Constitutional Court, and no fewer than four new books on the subject have appeared recently. A knowledge of unjustified enrichment is thus becoming increasingly important, both from a theoretical perspective and for the purposes of legal practice, whether in South Africa or elsewhere.

**Convener:** Associate Professor A Barratt  
**Course entry requirements:** All Preliminary and Intermediate Level courses to have been completed.  
**Course outline:**  
This course aims to introduce students to the rules and principles governing conflict of laws questions. How should South African courts decide cases which contain a foreign element? For example: a South African company offering hunting safaris suffers economic loss because of allegedly defamatory statements published and read in the United States. Does a South African court have jurisdiction over this matter? Should the court apply the South African law of delict, or must it apply American tort law? In this course, we will examine the general principles governing application of foreign law and will focus particularly on conflict of law questions that arise in the context of delict, contract, property, succession, marriage, and divorce.

This course deals with the relationship between law and literature in the context of post-apartheid. The prescribed work is Marlene van Nierkerk’s *Agaat*. In the first part of the work we read the novel through various lenses, following a philosophical and literary critical approach that illuminates the dialectics of space, representation, colonisation, apartheid and reconciliation in the novel. While the approach will have a strong focus on the work of Hegel as interpreted by Jacques Lacan, no prior knowledge of either Hegel’s philosophy or Lacan’s psychoanalysis is required. In the second part of the course, students will present seminars on a number of secondary texts written on Agaat, including those authored by legal scholars. We develop the individual research papers in further seminars. The course will rely greatly on engaged thinking ‘in action’. Active participation and attendance are essential.

The Faculty of Law at the University of Cape Town has been offering approved courses for Master of Laws, Master of Philosophy and Postgraduate Diploma purposes since the early 1980s. These courses have been introduced and expanded to meet the particular demands of and to complement the research work undertaken by specialised institutes and research units associated with the Faculty.

The growth in number of courses in recent years has emphasised the need to produce more integrated programmes. Simultaneously, changes in the social and political environment in South Africa have presented the Faculty with the opportunity to develop its postgraduate studies programme to meet a new set of challenges within an African and international context.

With these ends in mind, the School for Advanced Legal Studies was created in 1992 as the home for existing and planned elements of postgraduate law studies at UCT. It is located within the Faculty of Law, and has assumed responsibility for the co-ordination of all higher coursework teaching. Its objectives extend to the promotion of research and academic exchanges with students and staff at other universities.

**Rules and requirements for degrees and diplomas**

For LLM and MPhil purposes, students must select and complete four courses or their equivalent and submit a dissertation of not more than 25 000 words. Full-time students are expected to complete the requirements within an academic year (February to November or July to June), and part-time students are expected to complete the requirements within two years, save that the dissertation may be submitted by not later than the Friday before the first term starts, the year following the completion of the coursework for students who have completed their coursework in December and 15 September of the same year for students who have completed their coursework in June.

For named LLM (Professional Master's degree) purposes, students must select and complete four courses or their equivalent and complete a research project comprising four research tasks. Full-time students are expected to complete the requirements within an academic year (February to November or July to June), and part-time students are expected to complete the requirements within two years.

For Postgraduate Diploma purposes, students must select and complete four courses or their equivalent. Diploma students may, subject to relevant admission criteria, apply to convert their registration to the LLM programme.

- a score of at least 75% on the Academic Literacy component of the National Benchmark Test (NBT).

An applicant may be required to pass a law-specific English proficiency test before being permitted to register in the Faculty.
Obtaining the degree

FPM3.1 A candidate must undertake advanced study in four approved courses (or the equivalent) and complete a research project comprising four independent research tasks (or two tasks for the Master of Laws in Tax Law) demonstrating innovation or professional expertise, each linked to one of the four approved courses undertaken. The research project comprises a third of the total credits for the degree. The mark for the courses is the average of the marks obtained for the individual courses, and the mark for the research project is the average of the marks obtained for the four research tasks. To be awarded the degree a candidate must obtain a mark of at least 50% for each course and a mark of at least 50% for the research project.

FPM3.2 A candidate may be required to submit prepared assignments, participate in debates or moots, and undergo a written and/or oral examination in all or any of his/her approved courses.

FPM3.3 A candidate who has failed any approved course with 47% or more has the right to an oral examination in that course.

FPM3.4 Any such oral examination shall be convened upon a minimum of three days' notice given by the Faculty to the candidate, and shall be held at the Faculty in the presence of two examiners, one of whom shall be external to the course concerned, but who may be a member of the Faculty staff.

FPM3.5 Supplementary examinations are not set for any of the approved courses.

FPM3.6 Should a candidate fail a course he or she may only continue by taking another course, unless Senate gives permission to repeat the course failed.

FPM3.7 Each research task must be submitted for assessment by no later than the day on which examinations begin in the semester in which the course from which the research task is drawn runs.

FPM3.8 A candidate who fails the research project may be permitted by Senate on one occasion only to submit another research task, which must be drawn from a course which the candidate has passed but has failed the research task linked to that course. Unless otherwise permitted, the task must be submitted by no later than the Friday before the first term of the year following the completion of the coursework. Where the candidate has completed the coursework in June, the research task must be submitted for assessment by no later than the day on which examinations end in the second semester.

Credit and exemption

FPM4.1 For the purpose of granting credit for and exempting a candidate from a maximum of two of the courses prescribed under FPM3, Senate may accept examinations in an appropriate course of equivalent weight passed at this or another university or institution recognised for this purpose; provided that Senate may, in advance, approve a course or courses, which, if completed successfully, will allow credit for and exemption from a course or courses prescribed for the degree. Such approval will be valid for one year but may be renewed on the recommendation of the Faculty of Law.
FPM4.2 Where a candidate is granted credit for a course, or courses, the candidate will nevertheless have to complete a research task, or tasks, in an approved course, or approved courses, other than the courses for which the candidate is registered.

FPM4.3 Notwithstanding Rule FPM4.1, a candidate will not be admitted to the degree in terms of Rule FPM3 unless he or she has completed at least the majority of the prescribed courses and the research project at this University.

FPM4.4 Except with the permission of Senate, a student may not be granted credit towards the LLM degree for courses successfully completed towards the Postgraduate Diploma in Law after the Diploma has been conferred on that student.

Minimum requirements for re-admission
FPM5 Senate may refuse readmission to a candidate who
1. fails two courses, or the same course twice. For the purpose of this Rule, a 60-credit course shall be regarded as one course, or
2. does not submit a research task by the submission date, or any extended date granted in writing by the course convener of the course to which the research task is linked.

Duration of programme
FPM6 Except with the permission of Senate:
1. a full-time candidate must complete the approved coursework and research project required for the degree in one academic year (two courses and related tasks per semester); and
2. a part-time candidate must complete the approved coursework and research project required for the degree within two academic years (one course and related task per semester).

Distinction
FPM7 The degree may be awarded with distinction.

FPM8 For the degree to be awarded with distinction a candidate must:
8.1 complete the coursework in one year if full-time or in two years if part-time;
8.2 submit the research tasks as per rule FPM3.7;
8.3 not count work towards the degree in respect of work that he or she has completed towards another degree or diploma; and
8.4 obtain an average mark of at least 75%.

Exemption from or modification of rules
FPM9 Any exemption from or modification of these Rules must be approved by Senate.

Note:
(a) Courses on offer may be added to from time to time or a particular course may not be offered in a particular year.
(b) Candidates for the degree must at the time of application indicate which courses they intend to pursue. Certain courses have distinct admission criteria so that admission to a named LLM programme does not necessarily signify acceptance for such courses. International students should note that some of the courses assume detailed knowledge of South African law as the basis for further study: it is therefore unlikely that they would be admitted to such a course unless they have been permitted to do so by the course convener.
(c) The following general policy exists currently with regard to applicants: an applicant with an average of 70% will generally be granted automatic admission, while an applicant with an average of between 60% and 69% will be subject to discretionary admission. Subsequent study and/or related work experience is a recommendation.

Admission

FMC3 A person may be considered for admission as a candidate for the degree of Master of Laws if:

1. he or she has a law degree of the University or an equivalent degree of another University or institution recognised by the Senate for the purpose; or
2. he or she has in any other manner attained a level of competence, which, in the opinion of Senate, on the recommendation of the Faculty of Law, is adequate for the purposes of admission as a candidate for the degree.
3. in the case of an applicant whose primary language is not English, he or she has submitted evidence of proficiency in English of a sufficiently high standard to undertake postgraduate studies in Law. Evidence of proficiency may include one of the following:
- a recent score (obtained within 3 - 5 years before application for admission) of at least 570 (paper-based test) or 230 (computer-based test) or 88 (Internet-based test) on the Test of English as a Foreign Language (TOEFL)
- a recent overall band score of 7.0 (with no individual element of the test scoring below 6.0) on the International English Language Testing System (IELTS)
- a score of at least 75% on the Academic Literacy component of the National Benchmark Test (NBT).

An applicant may be required to pass a law-specific English proficiency test before being permitted to register in the Faculty.

4. in the case of the Master of Laws specialising in International Taxation, a person who has passed the final professional chartered accountancy examination of the Public Accountants and Auditors Board of South Africa, or an examination which, in the opinion of the Board and of the Senate, is of equivalent standard, or a Bachelor of Commerce (Hons) (Taxation) or equivalent acceptable qualification or experience, as evidenced by a submitted portfolio of academic and practical experience, is required. Professional and/or academic references for all applicants may be requested. A curriculum vitae and academic transcript is required on application. An entrance examination or interview may be required.

Obtaining the degree

FMC4 A candidate must undertake advanced study in four approved courses (or the equivalent) and complete a minor research dissertation under the guidance of a supervisor appointed by Senate. A candidate must obtain at least 50% for each course and at least 50% for the minor dissertation.

Examination

FMC5.1 A candidate may be required to submit prepared assignments, participate in debates or moots, and undergo a written and/or oral examination in all or any of his/her approved courses and/or minor dissertation.

FMC5.2 The candidate must submit a minor dissertation of not more than 25 000 words on a subject approved by Senate which must be of legal interest and related to one of the approved courses.

FMC5.3 A candidate who has failed any approved course with 47% or more has the right to an oral examination in that course.

FMC5.4 Any such oral examination shall be convened upon a minimum of three days’ notice given by the Faculty to the candidate, and shall be held at the Faculty in the presence of two examiners, one of whom shall be external to the course concerned, but who may be a member of the Faculty staff.

FMC5.5 Supplementary examinations are not set for any of the approved courses.

Credit and exemption

FMC6.1 For the purpose of granting credit for and exempting a candidate from a maximum of two of the courses prescribed under FMC4, Senate may accept examinations in an appropriate course of equivalent weight passed at this or another university or institution recognised for this purpose; provided that Senate may, in advance, approve a course or courses, which, if completed successfully, will allow credit for and exemption from a course or courses prescribed for the degree. Such approval will
be valid for one year but may be renewed on the recommendation of the Faculty of Law.

FMC6.2 Notwithstanding Rule FMC6.1, a candidate will not be admitted to the degree in terms of Rule FMC4 unless he or she has completed at least the majority of the prescribed courses and the minor dissertation at this University.

FMC6.3 Except with the permission of Senate, no student may be granted credit towards the LLM degree for courses successfully completed towards the Postgraduate Diploma in Law after the Diploma has been conferred on that student.

Date for submission of minor dissertation
FMC7.1 The proposal for the minor dissertation must be submitted to the supervisor no later than the time at which half the coursework requirements of the degree have been fulfilled.

FMC7.2 The minor dissertation must be submitted by no later than the Friday before the first term of the year following the Final Level of registration for approved courses (see Rule FMC11) for students who have completed their coursework in December and 15 September of the same year for students who have completed their coursework in June. Should a longer period be required to complete a dissertation, a formal application for extension must be submitted. This will have fee implications. Candidates have to re-register in February each year while completing the degree.

Exclusion from a course
Minimum requirements for readmission to the degree
FMC8.1 A candidate must pass three of the four courses in order to qualify for readmission.

FMC8.2 Should a candidate fail a course he or she may only continue by taking another course, unless Senate gives permission to repeat the course failed or study for a longer period.

FMC8.3 A candidate who fails the minor dissertation may be permitted by Senate on one occasion only to submit another minor dissertation, which must be on a different topic.

Exclusion from the degree
FMC9.1 A candidate who fails two courses or the same course twice will not be allowed to reregister for any other LLM course, except with the permission of Senate. For the purpose of this Rule, a double course shall be regarded as one course.

FMC9.2 A candidate who fails the minor dissertation twice or does not submit the dissertation timeously, having been given an extension of time (see FMC7) will not be allowed to re-register for either the Degree nor any further postgraduate study, except with the permission of Senate.

Duration of programme
FMC10 Except with the permission of Senate:
1. a full-time candidate must complete the approved coursework required for the degree in one academic year (two courses per semester) and the dissertation in accordance with Rule FMC7; and
2. a part-time candidate must complete the approved coursework required for the degree within two academic years (one course per semester) and the
dissertation in accordance with Rule FMC7.

**Minor dissertation**

FMC11 The minor dissertation must be satisfactory in arrangement and expression and must be typed and printed. Candidates are required to submit the final .pdf version for examination on PeopleSoft. The following statement must appear on the title page:

Research dissertation presented for the approval of Senate in fulfilment of part of the requirements for the (qualification for which a student is registered) in approved courses and a minor dissertation. The other part of the requirement for this qualification was the completion of a programme of courses.

I hereby declare that I have read and understood the regulations governing the submission of (qualification for which student is registered) dissertations, including those relating to length and plagiarism, as contained in the rules of this University, and that this dissertation conforms to those regulations.

**Publication of minor dissertation**

FMC12 No publication may, without the prior permission of the University, contain a statement that the published material was or is to be submitted in part or in full for the degree.

**Distinction**

FMC13.1 The degree may be awarded with distinction.

FMC13.2 For the degree to be awarded with distinction a candidate must:

1. complete the coursework in one year if full-time or in two years if part-time;
2. submit the minor dissertation no later than the Friday before the first term of the year following the completion of the coursework for students who have completed their coursework in December and 15 September of the same year for students who have completed their coursework in June;
3. not be permitted to count work for which he or she may have been granted credit towards the degree in respect of work completed towards another degree or diploma; and
4. obtain an average mark of at least 75%, the minor dissertation counting for 50% of the examination.

**Exemption from or modification of rules**

FMC14 Any exemption from or modification of the Rules for the LLM must be approved by Senate.

Note:

(a) Courses on offer may be added to from time to time or a particular course may not be offered in a particular year.

(b) Candidates for the degree must at the time of application indicate which courses they intend to pursue. Certain courses have distinct admission criteria so that admission to the LLM programme does not necessarily signify acceptance for such courses. Foreign students should note that some of the courses assume detailed knowledge of South African law as the basis for further study: it is therefore unlikely that they would be admitted to such a course.

(c) The following general policy exists currently with regard to applicants: an applicant with an average of 70% will generally be granted automatic admission, while an applicant with an average of between 60% and 69% will be subject to discretionary admission. Subsequent study and/or related work experience is a recommendation. For those with a BProc degree, an average mark greater than 70% is required, unless there is evidence of additional/subsequent work experience appropriate to the courses chosen.
Master of Philosophy (MPhil) in approved courses and a minor dissertation

These rules must be read in conjunction with the general rules for degrees and diplomas in Book 3: General Rules and Policies.

FMR1 The Faculty offers a Master of Philosophy degree which is examined by coursework and a minor dissertation, in the following circumstances:

(i) where a law graduate wishes to pursue Master's level studies in law as well as in inter-Faculty cognate topics, such that the award of an LLM degree would be inappropriate; or

(ii) where a non-law graduate wishes to pursue Master's level studies either in law as well as in inter-Faculty cognate topics or entirely in law.

Specialist areas

FMR2 The degree may be conferred without specialisation, in Law or in any of the specialist areas listed in Rule FMC2 above.

Admission

FMR3 In addition to those who may be considered for admission as candidates for the LLM degree (see Rule FMC3.1 and FMC3.2 above), graduates with an honours degree of the University or an equivalent degree of another university or institution recognised by Senate for this purpose may be considered for admission as candidates for a degree of Master of Philosophy.

In the case of an applicant whose primary language is not English, he or she must submit evidence of proficiency in English of a sufficiently high standard to undertake postgraduate studies in Law. Evidence of proficiency may include one of the following:

- a recent score (obtained within 3 - 5 years before application for admission) of at least 570 (paper-based test) or 230 (computer-based test) or 88 (Internet-based test) on the Test of English as a Foreign Language (TOEFL)

- a recent overall band score of 7.0 (with no individual element of the test scoring below 6.0) on the International English Language Testing System (IELTS)

- a score of at least 75% on the Academic Literacy component of the National Benchmark Test (NBT).

An applicant may be required to pass a law-specific English proficiency test before being permitted to register in the Faculty.

Further rules:

Rules FMC4 to FMC14 for the LLM degree (above) apply unchanged to the MPhil degree by coursework, except that ‘MPhil / Master of Philosophy’ is substituted for ‘LLM / Master of Laws’ where it appears.

Doctoral degrees

Doctor of Laws (LLD)

NOTE: Until 2004 different rules applied to the award of this doctorate.

FD1 The Degree of Doctor of Laws may be obtained for a substantial body of work that has already been published. Such work must constitute an original contribution to, or an important advance on, knowledge in the subject. This degree is the senior doctorate in the Faculty of Law. It is awarded rarely, as a mark of respect, normally only for work undertaken over a period of many years which has established the candidate as the leading authority in his or her field, and where the candidate has had a substantial and long association with the University.

FD2 The rules for the degree of Doctor of Philosophy, other than the admission rules, and the rule regulating the standing required prior to admission, apply mutatis mutandis.

Application for admission

FD3 Application for the LLD degree is governed by procedures set out by the Doctoral Degrees Board of the University in a document entitled Procedures for the Administration of the LLD by Published Work.

Note:

A copy of these procedures is obtainable from the Faculty Office. They include the following rules:
(i) the candidate must provide copies of the body of work, as specified by the Higher Degrees Committee,
(ii) a preliminary screening procedure must be undertaken by a Committee of Assessors, appointed by the Doctoral Degrees Board, to consider whether the work is of the standard and maturity required for this senior Doctorate, and
(iii) registration and examination will take place only when the Doctoral Degrees Board has accepted the application, and only after receiving the opinion of the Committee of Assessors.

Requirements for award of the degree

FD4.1 A candidate must submit published work in an area of law which must constitute a substantial, original and important contribution to the current body of scholarship. The candidate may submit other published and unpublished work as collateral testimony of fitness for the degree.

FD4.2 No work will be accepted which has been accepted by this or any other University for the purpose of obtaining a degree.

FD4.3 The examination will consist primarily of an assessment of the published work, but, if required by Senate, candidates must present themselves for an additional written or oral examination on the subject of the work presented.

POSTGRADUATE STUDY PROGRAMMES (EXCLUDING PROFESSIONAL MASTER'S)

Teaching contact periods vary from course to course: details must be obtained from the course convener in each instance. Because of the wide range of courses on offer, a draft timetable is drawn up for each semester. This might mean that certain combinations of courses are not possible, although the School for Advanced Legal Studies (SALS) will try to accommodate as much freedom of choice as possible. Please consult the timetable when choosing courses.

Various groupings of subjects are set out below as ‘programmes’, as the issues which are dealt with form a coherent whole. If a student elects such a ‘programme’, he or she will be awarded with the degree/diploma in the specialist area concerned. Please refer to the Rules for LLM and MPhil Degrees and the Rules for Postgraduate Diplomas in Law for further information.

The following ‘programmes” are described:
Commercial Law
Comparative Law in Africa
Constitutional and Administrative Law
Criminology, Law and Society
Dispute Resolution
Environmental Law
Human Rights Law
Intellectual Property Law
International Law
International Trade Law
Labour Law
Marine and Environmental Law *(not offered in 2017)*
Private Law and Human Rights
Public Law
Shipping Law
Tax Law

This does not mean that the courses listed under specific ‘programme’ headings may not freely be chosen as part of a ‘general’ diploma/degree, or as components of a field of study (e.g. commercial law) which is wider than a ‘programme’ but narrower than ‘general’.

**Commercial Law**

**Master's degree (LLM/MPhil) specialising in Commercial Law**

[LM003CML01/LM002CML01]

The curriculum comprises four elective courses, three of which must be from this section, or courses listed under the Labour Law or Shipping Law programmes, and a compulsory minor dissertation of not more than 25 000 words on a related topic approved by the programme convener. If so desired, a student may select the fourth elective from offerings in other departments. The curriculum consists of 240 credits.

The outline of the course comprises a selection of fundamental features of the South African income tax, mainly through critical evaluation of case law. Key jurisdictional concepts comprising the source and residence basis of income taxation will be considered in detail. The course will analyse the statutory and jurisprudential frameworks for the determination of taxable income, including the notion of income, the distinction between capital and revenue receipts and the deductibility of expenditure and losses. Tax law impacts the life of every citizen and is often political. At the end of this course students are expected to be able to start to identify the broader relevance and impact of tax law. The outline of the course is as follows. Because the focus is on legislation and non-lawyers may participate, the course will be introduced by a recapitulation of the legal framework for statutory construction. Throughout the course, the emphasis will be on development of the competencies required to use revenue legislation in a responsible manner. A selection of features of the South African Income Tax Act, 58 of 1962, will be considered. The relevant provisions are categorised into those dealing with the main tenants of the taxation of individuals, companies and other vehicles such as trusts and partnerships. Selected issues affecting the taxation of corporate income will be considered. In addition, the legislation imposing tax on capital gains will be dealt with, in overview. The course is concluded by a consideration of the various common law and statutory measures that address tax evasion and tax avoidance, including consideration of legitimate tax planning techniques.

*Higher postgraduate course, first semester.*
30 NQF credits at HEQSF level 9

**Convener:** Adjunct Professor F Ismail

**Course entry requirements:** An LLB from UCT or the equivalent legal qualification from a recognised university.

**Course outline:**
The Law of International Trade examines the public law aspects of international trade, the international regulatory framework within which private traders operate, concentrating on the law and practice of the World Trade Organisation (WTO). We will consider the purpose of trade, why it is that the WTO is considered the most successful of international organisations, and why it is that the WTO continues to attract controversy and criticism. In answering these questions, we will consider select WTO agreements to provide insights into both what the law says and how the law impacts on states and private actors within those states. The purpose of the course is to provide students with some ‘technical’ understanding of the WTO as an institution, and to provide students with the tools to critically evaluate whether the WTO is meeting its worthy objectives as set in the Agreement establishing the WTO, including raising living standards, ensuring full employment, optimising the use of the world’s resources in accordance with the principle of sustainable development, and ensuring that developing countries, especially LDCs, secure a share in the growth of international trade commensurate with their economic needs. This is not an economics course, and we cannot assess the economic case for free trade. Instead, as lawyers, we will examine the law and jurisprudence of the WTO, to assess to what extent the laws themselves allow for free and fair trade.

CML5661W TAX LAW
Higher postgraduate double course, taught throughout the year. The Convener of the course may, at his/her discretion, limit the size of the class for didactic reasons. CML5661W Tax Law is the approved course for the award of the Postgraduate Diploma in Tax Law: it is also a double-course for the award of the LLM degree in Commercial Law or Tax Law.

60 NQF credits at HEQSF level 9

Convener: Associate Professor J Hattingh and Ms A Titus

Course entry requirements: See Rules for LLM and MPhil Degrees.

Course outline:
The objective of the course is to nurture tax lawyers and to provide non-lawyers with an insight into tax law and the rights of taxpayers in regard to liability for taxation. The accent is on the practical application of tax legislation as interpreted by the courts. The aim is to produce commercial lawyers who will be able to achieve tax efficiency when drafting agreements, negotiating contracts and advising their clients, and to foster a similar awareness of tax issues in other professionals.

This is a one-year course that focuses on income tax law as pronounced upon by the courts. Its compass is necessarily restricted by the amount of lecturing time available, but also - deliberately - by the content of areas of dispute within which South African jurisprudence has been developed by the courts.

Tax law as an area of both practice and academic study is characterised by regular, frequent and, in recent years, substantial change. The chosen teaching method accordingly recognises that much information in the form of legislation, and the interpretation thereof by the courts, is likely to change significantly in the short term and possibly substantially in the medium to long term.

The objective of the course is to impart a way of thinking about tax issues and problems; and in order to achieve this extensive use is made of court pronouncements in areas which are likely to remain fundamental to our system of taxation - despite continuous reinterpretation by the courts and a shifting legislative context. Students who engage actively in this process obtain thereby a principled foundation and grasp that equips them to master the inevitable changes that characterise this branch of the law. This is an ability that is required of all tax professionals, whether academic or in practice, and the aim of this course is to foster and nurture the necessary skills.

The emphasis of the course is accordingly on knowledge rather than information, knowledge that will stand the test of time and enable graduates to integrate future tax changes into their methodology of resolving difficult tax problems in accordance with South African tax jurisprudence.

DP requirements: Candidates are required to pass (a minimum result of 50%) both the following: a two-hour written test in June which counts for 30%, and one three-hour final written examination in November which counts for 70%. Further tests maybe scheduled at the discretion of the convener.
CML5664F  LAW AND REGIONAL INTEGRATION IN AFRICA:
COMPARATIVE PERSPECTIVES

Higher postgraduate course, first semester.
30 NQF credits at HEQSF level 9
Convener: Associate Professor A Ordor
Course entry requirements: See Rules for LLM and MPhil Degrees.

Course outline:
The aim of the course is to provide a forum for students at an advanced level to critically study and
analyse developments related to law and regional integration in Africa and other regions of the world.
Production of research is also expected of the students.
The course will focus on both commercial and public law aspects in relation to regional integration in
Africa and elsewhere. It will therefore examine in a comparative context legal aspects of economic
and political integration in various regions with Africa as the starting point. The classes will consist
of a combination of lectures by conveners and guest lecturers and seminar presentations on selected
topics by students. All lectures and seminars will be on the basis of extensive background reading of
relevant materials.
Lecturers and seminars will mainly focus on historical developments of regionalism in Africa and
elsewhere, theories of regional integration, legal aspects of institutional and normative framework of
African and other regional integration experiences. In terms of Africa, the focus will be on the
normative and institutional framework of the African Union (AU) and debate on the Unites States of
Africa; the role of ‘soft’ mechanisms of the African Union such as NEPAD and the African Peer
Review Mechanism (APRM) in the facilitation of regional economic and political integration; the
relationship between the AU and sub-regional organizations such as ECOWAS, SADC, EAC to the
African Union; challenges of harmonisation of laws and the domestication of African economic
agreements, prospects and challenges of regional integration.
There will be a similar focus on other regional integration experiences such as those of Europe and
North America. The Course presentation will be a mix of lectures and student seminars and
discussions.

**Course outline:**

This course straddles and links Company Law and Labour Law by fostering an understanding of Corporate Governance and its underlying philosophies. It introduces a fresh perspective on the relationship between commerce and labour which have historically been cast as adversaries. The role of Corporate Governance in reversing that approach, and the value of doing so for companies themselves, is emphasised. The course may include a study of the Corporate Governance requirements and other relevant legal obligations with reference to inter alia the Companies Act, the King Report, international best practice, the JSE Listings requirements, the Insolvency Act, case law and common law. These Company Law and Corporate Governance rules, principles and policies are then applied and examined through the specific lens of Labour law. In considering selected corporate actions and events, the interactions between Company Law, Corporate Governance, Labour Law and selected aspects of other laws (including for example, Insolvency Law, Contract Law, International Trade Law, Trust Law and Competition Law) are discussed. Here, the need for meaningful Corporate Governance (rather than mere formalistic compliance with its tenets) will be debated, with particular reference to labour relations and the value of doing so for a company’s profit objectives.

Each assignment will have a practical focus, but which will need to be based upon theoretical difficulties within the law and practice of Regulatory Compliance Management generally. Each assessment will address issues which are discussed and addressed in lectures and tutorials, and the student will be assessed on the effectiveness, practicality and strategic value of the compliance strategies. The underlying aim of each assessment will be to prepare the graduate for typical scenarios which will be faced in practice, and so that each student can develop the practical skills to be implemented in Regulatory Compliance Management. November examination - 50%• The final examination will be a case study whereby the student is expected to provide a detailed and thorough compliance framework, a methodology for its development, implementation and monitoring. It will be a “take-home” examination. The question and relevant sources will be given to students, and the students will have a total of 14 days to complete the examination. There will be plagiarism checks in place to ensure the integrity of the examination submissions. The purpose of the extended period and the long period of the exam is to assess that the student can effectively develop a compliance framework, and can effectively plan the implementation,
further development, monitoring and management of that plan (i.e. the vital skills all compliance practitioners must be able to exhibit).

PBL4623F  GOVERNING UNDER THE CONSTITUTION: LAW AND PRACTICE  
**Higher Postgraduate Course, first semester.**  
30 NQF credits at HEQSF level 8  
**Convener:** Professor P de Vos  
**Course entry requirements:** See rules for Postgraduate Diplomas.  
**Course outline:**  
South Africa’s new Constitution sets out the rights of citizens and establishes a framework for democratic governance and local government. In developing these institutions, along with a multi-level system comprising national, provincial and local government, South Africa’s constitutional designers were responding to the needs and aspirations of contemporary South Africa. But they, in light of this comparative experience, also had before them a rich array of alternatives from other countries. The central purpose of this course is to seek to understand the new framework for governance in South Africa.
Constitutions are complex mixtures of broad principles, and specific rules and institutions. Accordingly, we will be interested in two levels of analysis: first, what broad principles and values underpin the institutional framework, and how are these expressed in the institutions themselves? And, second, more practically, how do these institutions, and the interactions among them, actually work in shaping the process of policy-making and implementation? Thus we are interested in the values associated with democracy – participation, accountability, consensus, etc; and in those associated with what might be called ‘effective governance’, in light of the policy challenges which face the country. The course will thus also provide you with an understanding of how government works with a focus on  
(i) the relationship between the executive and the legislature and what that means for lawyers and  
(ii) the relationship between national, provincial and local government.  
Our study of multi-level government and the powers of each sphere of framework necessary for policy making and litigation in this area.  
**DP requirements:** Satisfactory attendance at and participation in seminars and completion of written assignments.  
**Assessment:** Written assignments counts 30%; Written examination counts 70% of the final grade.

PBL4640F  PRINCIPLES OF ENVIRONMENTAL LAW
Higher Postgraduate Course, first semester. This course will be taught in the Block Teaching Format.
30 NQF credits at HEQSF level 8
Convener: Ms P King
Course entry requirements: See rules for Postgraduate Diplomas.
Course outline:
This course provides a comprehensive introduction to environmental law. It covers the following main content: historical overview of the development of environmental law; ethical basis for environmental law; the nature, scope and sources of environmental law; the relationship between constitutional rights (environmental rights, administrative justice, access to information, locus standi) and environmental law; environmental governance; the role of common law; and the main legal tools prevalent in environmental laws such as planning measures, institutional arrangements, permitting measures, EIA, civil measures, administrative measures, criminal measures, voluntary measures and incentive-based measures.
As South Africa has one of the world’s most contemporary environmental legal regimes, it will be used as a case study throughout the above components. Given the all-pervasive nature of environmental law, the issues covered in this course are of relevance to all domestic legal practitioners, government officials and those working in the NGO sector. Furthermore, given the contemporary nature of South Africa’s environmental regime, the course is of key relevance to foreign students wishing to understand, critique and become involved in the reformation of their own domestic environmental regimes.
DP requirements: Satisfactory attendance at all lectures, participation in class seminars and submission of course assignment.
Assessment: Coursework (50%); Written examination (50%)
PBL4641F  LAND USE PLANNING LAW

*Not offered in 2017. Higher Postgraduate Course, first semester. This course will be taught in the Block Teaching Format.*

30 NQF credits at HEQSF level 8

**Convener:** Professor A Paterson

**Course entry requirements:** See rules for Postgraduate Diplomas. The student must have completed, or be simultaneously completing Principles of Environmental Law or have the prior written consent of the convener.

**Course outline:**
One of the key ways to govern the impact of society on the environment is through regulating land use and planning. Land use planning law came into being at the beginning of the twentieth century but environmental law was superimposed on it towards the end of the twentieth century. The past few decades have accordingly seen a significant shift in the array and nature of regulatory tools planning authorities have sought to use to achieve a balance between the dictates of development and environmental protection. Key planning tools which are inherent in domestic legal frameworks include: integrated development planning; future spatial planning; zoning schemes; subdivision; title deed restrictions; environmental impact assessment; the designation of protected areas; and in the context of coastal management, integrated coastal planning. This course aims to critically examine the nature of these various planning tools. South Africa’s domestic regime is used as a case study through which to explore their practical application. These land-use and planning tools are of relevance to every landowner and the course is accordingly of relevance to domestic legal practitioners, government officials and those working in the NGO sector. Furthermore, given the contemporary nature of South Africa’s environmental impact assessment, coastal planning and protected areas regimes in particular, the course is of key relevance to foreign students wishing to understand, critique and become involved in the reformation of their own domestic land-use and planning regimes.

**DP requirements:** Satisfactory attendance at all lectures, participation in class seminars and submission of course assignment.

**Assessment:** Coursework (50%), Written examination (50%).

PBL4658S  ADMINISTRATIVE JUSTICE AND OPEN GOVERNMENT
Higher Postgraduate Course, second semester.
30 NQF credits at HEQSF level 8
Convener: Professor H Corder
Course entry requirements: See rules for Postgraduate Diplomas. Competent academic and/or practical knowledge of South African and/or common-law based administrative law. Those without a formal qualification in law will be admitted at the discretion of the course convener.
Course outline:
There is no doubt that the organisational complexity of a modern democratic state demands of its executive branch that it be sophisticated, efficient, open and accountable. Most of such administrative process must be based on discretionary power in the hands of public officials. The challenge is to fashion legal rights, duties and procedures so that the subject has remedies to confront the abuse of public power, while leaving the executive sufficient space to govern legitimately. South African administrative law is relatively undeveloped when compared with similar legal systems, yet it faces greater demands than exist in most countries. This is particularly the case as the Constitution develops to accommodate changing political reality. This course intends to enable students to become familiar with a responsive package of legal institutions and rules to regulate the administration. Current administrative law will be examined critically, with substantial reference to the way in which the law has developed in other jurisdictions, particularly in the British Commonwealth. The feasibility and form of constitutional protection of the right of access to information and of open government will receive considerable attention, in the context of the exponential increase in legal protection at both international and national level for ATI in the past 15 years, and the emerging new academic literature on ATI. While the course will be critical and forward-looking, it will naturally involve a detailed knowledge of current law and practice, equipping students to be practitioners in the forefront of developments in this field. Several guest lecturers will participate in the course while Associate Professor R Calland will lecture on open government.
DP requirements: Satisfactory attendance at and participation in seminars and completion of assignments.
Assessment: An essay and an assignment count for 40%; long paper or written examination counts for 60% of the final grade.

Convener: Associate Professor W Amien
Course entry requirements: See rules for Postgraduate Diplomas.
Course outline:
This course will enable a study of the implications for human rights arising from the simultaneous operation of secular, religious and customary legal systems within a singular country. To explore the significance that plural legal systems have on human rights, reference will be made to different types of religious and customary laws including (but not limited to) family laws, personal laws, inheritance, criminal laws, finance, etc. The course will draw on legislation, case law and socio-legal studies where applicable, to examine how religious and customary laws drawn from among others (but not limited to) Islam, Hinduism, Judaism, Christianity and African customary laws impact on various human rights including (but not limited to) the rights to freedom of religion, culture and equality. Apart from a study of the South African context, comparative perspectives will also be offered to enhance the students’ understanding of the debates and applications of multiple legal systems and their implications for human rights in the international arena.

**PBL4815S PUNISHMENT AND HUMAN RIGHTS**

*Higher Postgraduate Course, second semester.*

30 NQF credits at HEQSF level 8

**Convener:** Ms K Phelps

**Course entry requirements:** See rules for Postgraduate Diplomas.

**Course outline:**

This course aims to provide students with a sound theoretical understanding both of the justifications of punishment and human rights constraints in the context of sentencing. Students then apply this understanding to practical examples in order to assess how/if the theory translates into practice. In so doing it is hoped to transcend a common-sense approach to sentencing and punishment and to build firm opinions/approaches based on acquired knowledge. The course is divided into four broad sections. The first section introduces the class to the various philosophical justifications that have historically been provided for sentencing. A brief introduction is also provided to the relationship between human rights law and penal sanctions. The second section explores in detail the current justifications for punishment/purposes of the correctional system. In so doing, issues such as deterrence, incapacitation, rehabilitation, restoration, retribution and just deserts will be explored. Section three deals with constraints placed on sentencing in South Africa by human rights norms contained in the Bill of Rights and international law. The final section of the course places the preceding theoretical/philosophical discussions into a practical context by dealing with current and future sentencing practice in South Africa, modes of implementing punishment (e.g. prison) and special stakeholders in punishment.

**DP requirements:** 80% attendance at, and satisfactory participation in, seminars and the completion of the research papers and oral presentation.

**Assessment:** The presentation of at least one seminar and one research paper. Marks given for the seminars and research paper comprise the entire mark for the course.

Higher Postgraduate Course, second semester.
30 NQF credits at HEQSF level 8
Convener: Professor E van der Spuy
Course entry requirements: See rules for Postgraduate Diplomas.
Course outline:
This course provides an overview of the evolving interest in victims of crime and other forms of social harm. Here we take stock of concepts, theories, social constructions, policies and criminal justice practices which allow us to engage more thoughtfully with victims of crime and social harm. We are interested in the contestations and controversies relating to the social construction of victimhood, how claims to victimhood are staked; the forms of social mobilisation exhibited by groups of victims; the types of contestation to which this may give rise. We consider the interaction and/or fusion of identities between victims and offenders. Lastly, we move beyond the conventional remit of crime victims to take account of victims in the context of mass victimisation and in the context of organised forms of violence.

**Convener**: Professor E van der Spuy and Associate Professor J Berg

**Course entry requirements**: See rules for Postgraduate Diplomas.

**Course outline**:  
This course aims to prepare students both to properly understand empirical research and methods, and to engage in empirical research projects of their own. Lawyers and legal scholars increasingly use empirical evidence to understand the legal system and its role in society, to unpack complex legal and policy questions, and to support their positions in the courtroom and in the business environment. Students who aim to undertake careers in academia (in the social sciences and in law) are increasingly required to undertake primary research. This course is designed to introduce students to the foundations of qualitative and quantitative empirical research, qualitative data collection and analysis techniques. The course intends to familiarise students with the research process from design to implementation, and will also consider the ethical implications of qualitative empirical research. The course is built on the view that empirical research is a craft that requires practice to do it well. Classes will provide students the opportunity to learn qualitative techniques through hands-on activities, class meetings and assignments.

**DP requirements**: Satisfactory attendance at seminars and completion of written assignments.

**Assessment**: Coursework 50%. A substantial research proposal of 6000-8000 words 50%.

PBL5623F GOVERNING UNDER THE CONSTITUTION: LAW AND PRACTICE
Higher postgraduate course, first semester, one seminar per week.
30 NQF credits at HEQSF level 9
Convener: Professor P de Vos
Course entry requirements: See Rules for LLM and MPhil Degrees.
Course outline:
South Africa’s new Constitution sets out the rights of citizens and establishes a framework for democratic governance and local government. In developing these institutions, along with a multi-level system comprising national, provincial and local government, South Africa’s constitutional designers were responding to the needs and aspirations of contemporary South Africa. But they, in light of this comparative experience, also had before them a rich array of alternatives from other countries. The central purpose of this course is to seek to understand the new framework for governance in South Africa.

Constitutions are complex mixtures of broad principles, and specific rules and institutions. Accordingly, we will be interested in two levels of analysis: first, what broad principles and values underpin the institutional framework, and how are these expressed in the institutions themselves? And, second, more practically, how do these institutions, and the interactions among them, actually work in shaping the process of policy-making and implementation? Thus we are interested in the values associated with democracy – participation, accountability, consensus, etc; and in those associated with what might be called ‘effective governance’, in light of the policy challenges which face the country. The course will thus also provide you with an understanding of how government works with a focus on

(i) the relationship between the executive and the legislature and what that means for lawyers and
(ii) the relationship between national, provincial and local government.

Our study of multi-level government and the powers of each sphere of framework necessary for policy making and litigation in this area.

DP requirements: Satisfactory attendance at and participation in seminars and completion of written assignments.

Assessment: Written assignments count 30%; written examination counts 70% of the final grade.

PBL5640F PRINCIPLES OF ENVIRONMENTAL LAW
Higher postgraduate course, first semester. This course will be taught in the Block Teaching Format.
30 NQF credits at HEQSF level 9

Convener: Ms P King

Course entry requirements: See Rules for LLM and MPhil Degrees.

Course outline:
The health of planet earth, and accordingly the sustainability of human life on it, is facing significant challenges. One of the disciplines which have sought to fashion a framework for overcoming and governing these challenges, is law. The result has seen the rapid emergence of international and regional instruments and domestic laws seeking to regulate the manner in which humans interact with their environment.

This course provides a comprehensive introduction to environmental law. It covers the following main content: historical overview of the development of environmental law; ethical basis for environmental law; the nature, scope and sources of environmental law; the relationship between constitutional rights (environmental rights, administrative justice, access to information, locus standi) and environmental law; environmental governance; the role of common law; and the main legal tools prevalent in environmental laws such as planning measures, institutional arrangements, permitting measures, EIA, civil measures, administrative measures, criminal measures, voluntary measures and incentive-based measures.

As South Africa has one of the world’s most contemporary environmental legal regimes, it will be used as a case study throughout the above components. Given the all-pervasive nature of environmental law, the issues covered in this course are of relevance to all domestic legal practitioners, government officials and those working in the NGO sector. Furthermore, given the contemporary nature of South Africa’s environmental regime, the course is of key relevance to foreign students wishing to understand, critique and become involved in the reformation of their own domestic environmental regimes.

DP requirements: Satisfactory attendance at all lectures, participation on class seminars and submission of course assignment.

Assessment: Coursework (50%); Written examination (50%)

PBL5641F LAND USE PLANNING LAW
(not offered in 2017) Higher postgraduate course, first semester. This course will be taught in the Block Teaching Format.

Convener: Professor A R Paterson

Course entry requirements: See rules for LLM and MPhil Degrees. The student must have completed, or be simultaneously completing, Principles of Environmental Law or have the prior written consent of the course convener.
Course outline:
One of the key ways to govern the impact of society on the environment is through regulating land-use and planning. Land use planning law came into being at the beginning of the twentieth century but environmental law was superimposed on it towards the end of the twentieth century. The past few decades have accordingly seen a significant shift in the array and nature of regulatory tools planning authorities have sought to use to achieve a balance between the dictates of development and environmental protection. Key planning tools which are inherent in domestic legal frameworks include: integrated development planning; future spatial planning; zoning schemes; subdivision; title deed restrictions; environmental impact assessment; the designation of protected areas; and in the context of coastal management, integrated coastal planning. This course aims to critically examine the nature of these various planning tools. South Africa’s domestic regime is used as a case study through which to explore their practical application. These land-use and planning tools are of relevance to every landowner and the course is accordingly of relevance to domestic legal practitioners, government officials and those working in the NGO sector. Furthermore, given the contemporary nature of South Africa’s environmental impact assessment, coastal planning and protected areas regimes in particular, the course is of key relevance to foreign students wishing to understand, critique and become involved in the reformation of their own domestic land-use and planning regimes.

DP requirements: Satisfactory attendance at all lectures, participation on class seminars and submission of course assignment.
Assessment: Coursework (50%); Written examination (50%)

PBL5644F SEXUAL OFFENCES AND THE LAW

(not offered in 2017) Higher postgraduate course, first semester.

30 NQF credits at HEQSF level 9

Convener: Professor D Smythe

Course entry requirements: See Rules for LLM and MPhil Degrees.

Course outline:
In 2007 a decade-long process of reforming South Africa’s sexual offences laws culminated in the passage of the Criminal Law (Sexual Offences and Related Matters) Amendment Act 32 of 2007. At each stage of this process those involved in the law reform effort were forced to make strategic decisions about aspects of the proposed reforms. They asked hard questions about how useful specific reforms would be in achieving envisaged ends. Many of these questions remain: Why, for example, do we need a gender-neutral definition of rape? What difference does it make if consent is a defence or lack of consent an element of the crime? For answers to these difficult questions those involved in the process drew on experiences in the field, on the empirical data that they and others had generated in relation to victims, service providers, and criminal justice agencies, and on the comparative experiences of other jurisdictions with similar reforms enacted over the past 30 years.

Taking a multi-disciplinary approach, this course will track the process of rape law reform in South Africa, looking critically at what was included in the Act and what was omitted. It will move from broad questions about the utility of law in addressing sexual violence to a focused consideration of the interpretation and potential impact of key provisions. Issues to be covered in seminars include:

- Investigating and prosecuting rape
- Defining rape and issues of consent
- Harmful HIV-related sexual conduct
- Medico-legal and psycho-social issues
- Provision of PEP, treatment and counselling
- Special issues relating to the youthfulness of victims and offenders
- Vulnerable witnesses and protective measures
- Evidence and Procedure: caution, corroboration and delays, previous sexual history, character and disclosure of personal records
- Expert evidence
- Sentencing, treatment and supervision of offenders
DP requirements: Satisfactory attendance at, and participation in, seminars and completion of written work.
Assessment: Coursework (30%) and a substantial research paper (70%).

PBL5647S  SOCIAL JUSTICE, LAW AND DEVELOPMENT
(not offered in 2017)Higher postgraduate course, second semester, one seminar per week.
30 NQF credits at HEQSF level 9
Convener: Ms M von Broembsen
Course entry requirements: An LLB or Honours degree in selected Social Science disciplines. The Faculty reserves the right to limit classes to 15 students.
Course outline:
This interdisciplinary course explores the different theoretical approaches to social justice and how these are embodied in policy. The course compares the imperatives of social justice with competing conceptualisations of development and pays particular attention to how different conceptualisations of development, social justice and poverty lead to an emphasis on different institutional structures, policies and distributive outcomes. Throughout the course we critically consider the role that law plays in realising different development paradigms. Increasingly, the dominant development paradigm asserts that ‘development happens through jobs’. In other words, implicit in the orthodox view of development is a reliance on the market to realise social outcomes. Not only is participation in the economy the primary strategy to alleviate poverty, but simultaneously it is viewed as the primary means of realising a range of social and economic objectives, including rural development, social inclusion and gender equality. The second part of the course therefore focuses on work. We explore the implications of ‘globalisation’ for work relations, the informal economy and multi-national corporations’ power in the context of value chains and consider the implications and challenges from a social justice perspective. While globalisation has resulted in a crisis for labour law, at the same time, it will be argued, it produces opportunities for law to challenge the primacy of economics as the discipline that frames our understanding of development.
Lecture times: Three hours per week.
DP requirements: Must have 50% for first essay. Failure to have 50% means candidate will have to write a test on the first half of the course.
Assessment: Essay 1: 20%; Class presentations (2) 20%; Reflection on prescribed book 10%; Essay 2: 40%;Class participation 10%

30 NQF credits at HEQSF level 9
Convener: Ms M von Broembsen
Course entry requirements: An LLB or Honours degree in selected Social Science disciplines. The Faculty reserves the right to limit classes to 15 students.
Course outline:
This course is concerned with social justice in practice. Our touchstone is the transformative vision embodied in the Constitution of South Africa, as we reflect on the interplay between rights, social mobilisation, advocacy and developmental strategies within a participatory democracy.
Using ‘Legal Empowerment of the Poor’ as a lens, the course reflects on notions of empowerment; how power (including our own) impacts on and shapes the practical outworking of social justice and at times results in unintended consequences.
The main focus of the seminars is on practical strategies intended to facilitate social justice. Students will study the theory in each area and undertake selected site visits to projects that reflect best practice. Students are assigned to work with a civil society organization for the duration of the course. Each student will be required to spend 32 hours with the organisation, spread over the period of the course. The course concludes with the design and implementation of a small-scale development intervention by the student, in conjunction with the civil society partner.
DP requirements: None
**Assessment:** Students are required to pass the practical project in order to pass the course.

**PBL5658S  ADMINISTRATIVE JUSTICE AND OPEN GOVERNMENT**  
*Higher postgraduate course, second semester, one seminar per week.*  
30 NQF credits at HEQSF level 9  
**Convener:** Prof P de Vos  
**Course entry requirements:** Competent academic and/or practical knowledge of South African and/or common-law based administrative law. Those without a formal qualification in law will be admitted at the discretion of the course convener.  
**Course outline:**  
There is no doubt that the organisational complexity of a modern democratic state demands of its executive branch that it be sophisticated, efficient, open and accountable. Most of such administrative process must be based on discretionary power in the hands of public officials. The challenge is to fashion legal rights, duties and procedures so that the subject has remedies to confront the abuse of public power, while leaving the executive sufficient space to govern legitimately. South African administrative law is relatively undeveloped when compared with similar legal systems, yet it faces greater demands than exist in most countries. This is particularly the case as the Constitution develops to accommodate changing political reality. This course intends to enable students to become familiar with a responsive package of legal institutions and rules to regulate the administration. Current administrative law will be examined critically, with substantial reference to the way in which the law has developed in other jurisdictions, particularly in the British Commonwealth. The feasibility and form of constitutional protection of the right of access to information and of open government will receive considerable attention, in the context of the exponential increase in legal protection at both international and national level for ATI in the past 15 years, and the emerging new academic literature on ATI. While the course will be critical and forward-looking, it will naturally involve a detailed knowledge of current law and practice, equipping students to be practitioners in the forefront of developments in this field. Several guest lecturers will participate in the course while Associate Professor R Calland will lecture on open government.  
**DP requirements:** Satisfactory attendance at and participation in seminars and completion of assignments.  
**Assessment:** An essay and an assignment count for 40%; long paper or written examination counts for 60% of the final grade.
PBL5659S  HUMAN RIGHTS, LEGAL PLURALISM, RELIGION AND CULTURE  
Higher postgraduate course, second semester, one three hour seminar a week.  
30 NQF credits at HEQSF level 9  
Convener:  Associate Professor W Amien  
Course entry requirements:  See Rules for LLM and MPhil Degrees.  
Course outline:  
This course will enable a study of the implications for human rights arising from the simultaneous operation of secular, religious and customary legal systems within a singular country. To explore the significance that plural legal systems have on human rights, reference will be made to different types of religious and customary laws including (but not limited to) family laws, personal laws, inheritance, criminal laws, finance, etc. The course will draw on legislation, case law and socio-legal studies where applicable, to examine how religious and customary laws drawn from among others (but not limited to) Islam, Hinduism, Judaism, Christianity and African customary laws impact on various human rights including (but not limited to) the rights to freedom of religion, culture and equality. Apart from a study of the South African context, comparative perspectives will also be offered to enhance the students’ understanding of the debates and applications of multiple legal systems and their implications for human rights in the international arena.  
Course outline (the course will address the following broad themes):  
1.  Theoretical foundations of legal pluralism  
3.  Selected religious and customary laws and their implications for human rights  
4.  Legislative and judicial interventions contributing to legal pluralism  
5.  Comparative perspectives from across the globe (including South Africa)  
Lecture times:  To be arranged.  
DP requirements:  Satisfactory attendance at and participation in seminars, and completion of written assignment and seminar presentation.  
Assessment:  Class attendance and participation counts 20%; written assignment counts 50%; seminar presentation based on the written assignment counts 30%.  

PBL5660S  ISSUES IN CRIME & JUSTICE: ORGANISED NON-STATE VIOLENCE IN AFRICA  
Higher postgraduate course, second semester, one seminar per week.  
30 NQF credits at HEQSF level 9  
Convener:  Mr G Lamb and Associate Professor J Berg  
Course entry requirements:  LLB, Honours or equivalent degree.  
Course outline:  
The vast majority of African countries frequently experience organised violence, such as belligerent street protests, riots, vigilante action or militant labour strikes. In some African countries street and/or prison gangs, violent organised criminal groups, death squads, militias and rebels are active. This inter-disciplinary course will provide students with an opportunity to familiarise themselves with the concepts, manifestations, agents and theories of organised violence in Africa. The focus of the course will be to critically reflect on the dominant paradigm that perceives agents of organised violence as ‘parasitic’, ‘barbaric’ and ‘predatory’, which do not make constructive contributions to building state capacity and human development. Further to this, the conventional approach prioritises the combatting and repression of these agents. In addition, this course will consider the strategies and mechanisms by which this form of violence can be more constructively managed and resolved.  
DP requirements:  Satisfactory attendance at lectures and submission of all assignments.  
Assessment:  Coursework only: Class presentation (15%), two essays of 3 000 words (30%) and a policy paper of 6 000 words (55%).
PBL5661F LITIGATING SOUTH AFRICAN BILL OF RIGHTS

Higher postgraduate course, first semester.
30 NQF credits at HEQSF level 9
Convener: Associate Professor R Calland
Course outline:
South Africa’s experiment in Constitutional Democracy represents a rich case for the study of modern human rights. The socio-economic and political backdrop against which the Bill of Rights operates provides a complex and challenging context for the laboratory in rights and governance that the 1996 Constitution – and the political settlement that lies behind it – creates. Since the Constitution enjoins the courts to take into account international law when applying and interpreting the rights contained in the Bill of Rights, the course will, therefore, root the South African human rights law trajectory in an international framework and, where appropriate, provide a comparative perspective. Thus, the course tracks the jurisprudence of the South African courts and, in particular, the Constitutional Court since its inception, through the study of specific human rights topics, broadly categorised as:
- Civil and political rights – such as the right to freedom of expression and free media speech, the right to equality and religious/cultural freedom, etc;
- Socio-economic rights – such as the right to access to adequate housing, the right to a clean environment, the right to quality basic education, the right to health care, etc;
- Programmatic rights – such as the right to access to justice and the ‘right’ to participate in public policy-making

The course will also consist of several sessions dealing with the conceptual and practical aspects of litigating constitutional cases.

DP requirements: Satisfactory attendance at and participation in lectures and completion of written and other assignments.
Assessment: Assessment will be by: (a) essay (40%); and (b) oral and/or written examination, in which each participant will be expected to draft heads of argument and argue the case; or alternatively by way of a written seminar paper and an oral examination (60%).

PBL5662S CONSTITUTION-MAKING IN AFRICA
(Not offered in 2017)
30 NQF credits at HEQSF level 9
Convener: Professor C Murray
Course entry requirements: LLB or other appropriate Bachelor Degree
Co-requisites: None
Course outline:
Constitution-making in Africa is intended to enable students to understand the theory of constitution-making and its practice in Africa, in a comparative context. Material and classes will consider different processes, why they were followed and how they worked; the implications of underlying differences in the history and constitutional traditions of different countries for the substance and process of constitution-making; the impact of internationalisation on constitutional review; and the tension between the roles of the people and elites in most constitution-making processes. The course will also pay attention to the key issues of constitutional design in African states. Much of the work will be through case studies which may include Kenya, South Africa, Tunisia and Zimbabwe, as well as selected Francophone examples and any recent processes. Students who have successfully completed the course will understand why a process of constitutional review may be initiated; the implications of the contexts in which constitution-making may occur; the phases of constitution-making, the issues likely to arise in each phase, and options for dealing with them; the principal options available in making a new constitution and the impact of context and history on options; and the implications of internationalisation for constitution-making. They will also be familiar with the constitution-making experiences of selected African case studies and certain non-African ones and have an informed view on the difficulties of transferring the constitutional experience of one state to another, both generally and in the context of constitution-making.

DP requirements: Completion of all course assessments.
Assessment: Four short (3 page) assignments to be completed at intervals during the course (20%); participation in an extended simulation (30%); examination (50%).

**PBL5815S  PUNISHMENT AND HUMAN RIGHTS**  
*Higher postgraduate course, second semester.*
30 NQF credits at HEQSF level 9  
Convener: Ms K Phelps  
**Course entry requirements:** See Rules for LLM and MPhil Degrees.  
**Course outline:**  
This course aims to provide students with a sound theoretical understanding both of the justifications of punishment and human rights constraints in the context of sentencing. Students then apply this understanding to practical examples in order to assess how/if the theory translates into practice. In so doing it is hoped to transcend a common-sense approach to sentencing and punishment and to build firm opinions/approaches based on acquired knowledge.  
The course is divided into four broad sections. The first section introduces the class to the various philosophical justifications that have historically been provided for sentencing. A brief introduction is also provided to the relationship between human rights law and penal sanctions. The second section explores in detail the current justifications for punishment/purposes of the correctional system. In so doing, issues such as deterrence, incapacitation, rehabilitation, restoration, retribution and just deserts will be explored. Section three deals with constraints placed on sentencing in South Africa by human rights norms contained in the Bill of Rights and international law. The final section of the course places the preceding theoretical/philosophical discussions into a practical context by dealing with current and future sentencing practice in South Africa, modes of implementing punishment (e.g. prison) and special stakeholders in punishment.  
**DP requirements:** 80% attendance at, and satisfactory participation in, seminars and the completion of the research papers and oral presentation.  
**Assessment:** The presentation of at least one seminar and one research paper. Marks given for the seminars and research paper comprise the entire mark for the course.

groups of victims; the types of contestation to which this may give rise. We consider the interaction and/or fusion of identities between victims and offenders. Course entry requirements: See Rules for LLM and MPhil Degrees.  
Course outline:  
Law shapes and is shaped by our social, political and cultural institutions and practices. In this course we will engage with some of the key theories and concepts, such as legal consciousness and legal pluralism, that help us to understand the relationship between law and society. Explicitly interdisciplinary in orientation, the course will consider questions that arise – and are best addressed – at the intersections of legal, social, political and economic fields like why some laws are made (or enforced) and others are not, the institutional barriers to effective implementation, the reasons why citizens turn to the law (or not) to address their problems, the functioning of police, prosecutors, courts and prisons – and the other forms of social regulation that fill the gaps in between.  
DP requirements: Satisfactory attendance at seminars and completion of written assignments.  
Assessment: Weekly response papers 30%; Presentation at a student conference on Law and Society 20%; Research paper of 6000-8000 words 50%

30 NQF credits at HEQSF level 9  
Convener: Professor E van der Spuy and Associate Professor J Berg  
Course entry requirements: See Rules for LLM and MPhil Degrees.  
Course outline:  
This course aims to provide students with the knowledge and skills to undertake relevant and ethical research through preparing students both to properly understand empirical research and methods, and to engage in empirical research projects of their own. Students who aim to undertake careers in academia (in the social sciences and in law) are increasingly required to undertake primary research. Thus, this course is designed to introduce students to the foundations of qualitative empirical research, qualitative data collection and analysis techniques. The course intends to familiarise students with the research process from design to implementation, and will also consider the ethical implications of qualitative empirical research. The course is built on the view that empirical research is a craft that requires practice to implement effectively. Classes are therefore hands-on, designed to be highly interactive, and will provide students with the opportunity to learn qualitative techniques by ‘doing’ in class meetings and in assignments. Although the course is primarily focused on qualitative research, a component of the course will equip students with the skills to be able to read and understand quantitative data.  
DP requirements: Satisfactory attendance at seminars and completion of written assignments  
Assessment: Coursework 50%. A substantial research proposal of 6000-8000 words 50%

**Course entry requirements:** See rules for LLM and MPhil Degrees.  
**Course outline:**  
This course investigates the relationship between delict and unjustified enrichment (that is, non-contractual obligations), on the one hand, and human rights on the other, particularly as those are enacted in bills of rights or similar legally-binding documents. The main emphasis will be on South African law. In the first place, the course will look at the important ways in which the South African law of delict has been (and still might be) changed in order to bring it in line with the South African Constitution: examples are in respect of omissions by public bodies, vicarious liability, and enrichment, and at how it relates to the rights in and values of the South African Constitution. The course will, however, also place the South African law in a broader comparative context: in particular,
it will look at the relationship between delict/tort and unjustified enrichment/restitution, on the one hand, and human rights, on the other, in English, Canadian and German law.

Exchange Student:
A student from an overseas tertiary institution with which UCT has entered into an Exchange Agreement (either a ‘university wide’ agreement which may be administered by the International Academic Programmes Office (IAPO) or a ‘Faculty wide’ agreement concluded with the Faculty of Law and which is administered by the Faculty Office) in terms of which one or more students from the overseas institution register at UCT for one or more semesters (depending on the terms of the exchange agreement) usually subject to a fee waiver arrangement. The overseas institution with which UCT has concluded an exchange agreement will usually nominate students to take up an exchange place at UCT. Once nominated by the home institution and once the UCT Faculty Office is advised of such nomination, exchange students must comply with the procedures for applying to study at UCT and may contact the Faculty Office for more information in this regard. Contact your university Exchange Co-ordinator for more information on whether or not your institution has an exchange agreement with UCT and for the nomination procedures of your institution. Also see the website http://www.uct.ac.za/about/iapo/overview/welcome/ or email int-iapo@uct.ac.za for more information on the orientation programme offered by IAPO, for information on accommodation and for general information pertaining to studying at UCT.

Semester Study Abroad (SSA) Student:
A student from an overseas tertiary institution who registers at UCT for one or more semesters, paying full tuition fees. See website http://www.uct.ac.za/about/iapo/overview/welcome/ or email int-iapo@uct.ac.za for more information on application and other procedures for studying at UCT. See further information below on the courses which semester study abroad students are eligible to take.

Semester:
This refers to the study periods at UCT, which comprise a first term (usually from mid-February to mid-June) and a second term (usually from end July to mid-December). UCT also has Summer and Winter Terms respectively which fall over the university student vacation. Each term (or semester) can be divided into two quarters. For more information visit the website http://www.uct.ac.za - select Calendars and Events and then Terms.

Undergraduate Student:
A student who does not yet hold a law degree (or a non-law general degree) from a tertiary institution. Students who are already in possession of a degree from a tertiary institution, and who are attending law school, but yet have to be awarded a law degree are still regarded as undergraduate students for the purpose of study at UCT.

Postgraduate Student:
A student who is already in possession of a law degree from a tertiary institution.

IAPO:
The International Academic Programmes Office through whom semester study abroad students must apply for admission to UCT. IAPO arranges an orientation programme for semester study abroad and exchange students and also provides further information on accommodation and general information pertaining to study at UCT. See the website http://world.uct.ac.za or email iapo@world.uct.ac.za for more information.

Faculty of Law:
The Faculty of Law is one of 6 faculties into which UCT is divided and these 6 faculties in turn consist of approximately 60 departments. The Faculty of Law offers a Bachelor of Laws (graduate stream or undergraduate stream), Master of Laws (by coursework and dissertation or research project, or by research dissertation only), the Postgraduate Diploma in Law and the PhD (Doctor of Philosophy or Doctor of Laws). The Dean is the Head of the Faculty and is assisted by the Faculty Office which is headed by the Faculty Manager for Academic Administration. **Academic and general information**

**Undergraduate Exchange and Semester Study Abroad Students** may do no more than four courses per semester (unless they obtain permission from the Exchange Advisor to do so).

- These four courses can comprise no more than one LLM course and up to three LLB courses.
- Should an undergraduate student wish to take an LLM course, s/he must first obtain the permission of the individual course convener and provide the Administrative Assistant of the Law Faculty Office with the convener’s written permission. A signature by the course convener on the registration form is sufficient, if such permission can be obtained at the time of registration. If not, written confirmation must be given to the Faculty Office at the earliest available date thereafter.
- Students do not need to do an LLM course and may limit their course selections to LLB courses only.
- We cannot advise you on how many credits you will receive from your home institution per course. All we can advise is that a full semester load for our undergraduate students is the equivalent of four courses per semester.

**Postgraduate Exchange and Semester Study Abroad Students** may do a maximum of three LLM courses per semester.

- No additional LLM or LLB courses may be taken.
- Postgraduate students do not need to obtain the permission of the LLM course convener in order to take an LLM course, unless the Faculty Handbook prescribes certain necessary course Entrance requirements or has limited class sizes prescribed for the course.

**Course Contact Lectures and Information:**

- The number of contact lectures for each LLB and LLM course is contained in the Law Faculty Handbook, available from the Law Faculty Office or on the UCT website (www.uct.ac.za/ students/undergraduates/handbooks/).
- Much of the information regarding courses (both LLB and LLM) is also available online on the Law Faculty’s website (http://www.law.uct.ac.za, select Courses).

**Other General Requirements:**

- Exchange students who have come to study at UCT in terms of an exchange agreement between their Law Faculty and the UCT Law Faculty may only do courses offered by the UCT Law Faculty. If they do wish to do courses offered by other faculties at UCT, they need to register as occasional students in respect of those additional courses with IAPO, for which they will need to pay the appropriate fees.
Exchange and semester study abroad students who register for a course are expected to complete all the assignments and examinations set for that course. Students do not receive a credit for a course merely for 'attending' lectures or seminars regularly.

Exchange and semester study abroad students can change a course at any time within the first week following registration. Thereafter, they will be precluded from doing so.

The prize winner is determined by the Dean in consultation with the Editorial Board of *Responsa Meridiana*.

**Dean’s Merit List**

**NOTES:**
1. *The Dean’s Merit List is published annually. It contains the names of students whose academic performance over the year is meritorious and hence worthy of recognition. Students who qualify for inclusion in the list will receive a letter of commendation from the Dean. The list will be posted on notice boards. The academic records of students will be endorsed accordingly.*
2. *The final results for students who write deferred examinations will be calculated only after publication of the deferred examination results.*

For inclusion in a Merit List, a student must:
(a) obtain an overall percentage of 70% or above in all courses completed for the relevant year of study. Credits from other universities may be included for this purpose, provided that at least the equivalent of four full courses is completed at this university in each of the years. *(Note: For the purposes of computing averages, see the details below in ‘How to calculate your total average mark’. Marks for the course Understanding Financial Statements (ACC1014S) or its equivalent, Law that Counts (MAM1013F/S), are not included when determining inclusion in the Dean’s Merit List. The required aggregate will include deferred examination results, but not supplementary examination results. The required aggregate will be increased by one percentage point for each course fewer than the prescribed number in the standard curriculum.)*
(b) complete the courses within the minimum period;
(c) not fail any course in the year concerned; and
(d) not be repeating any course.

**How to calculate your total average mark**

**Preliminary Level and Academic Development Programme**
Add the scores in all the courses of the Preliminary Level, Preliminary Level A, Preliminary Level B, or the relevant year of the undergraduate or graduate extended curriculum stream, as the case may be, adding the scores for whole courses TWICE. To get the average percentage, divide the total so calculated by the number of half course equivalents taken.

**Intermediate Level**
Old curriculum (students who registered for the LLB for the first time up to and including 2011)
Add the scores in all the courses of the Intermediate Level, adding the scores for whole courses TWICE. Divide the total number so calculated by 11 to get the average percentage.
New curriculum (students who registered for the LLB for the first time in 2012 or thereafter)
Add the scores in all the courses of the Intermediate Level, adding the scores for whole courses TWICE. Divide the total number so calculated by 10 to get the average percentage.
Final Level
Whole courses  = % x 4
Half courses  = % x 2
Elective courses  = % x 1

Old curriculum (students who registered for the LLB for the first time up to and including 2011)
Add the weighted percentages calculated according to the above formula. Divide the total by 18 to get the average percentage.

New curriculum (students who registered for the LLB for the first time in 2012 or thereafter)
Add the weighted percentages calculated according to the above formula. Divide the total by 20 to get the average percentage.

LLB Class Medals
A. Courses for which medals may be awarded:
1. A medal is awarded for a course only if Senate so decides. In determining whether a medal should be awarded for a course, Senate must be guided by the following:
   1.1 A medal may be awarded in any course, half course or semester course which is taught during contact periods totalling at least 36 hours, or which has equivalent weight.
   1.2 Courses or parts of courses or units may be combined for the purposes of the award of a medal provided:
      1.2.1 the courses, part courses or units are not optional, and
      1.2.2 they are undertaken in each instance by the same group of students during the course of a single academic year.
   1.3 Except as determined by Senate, only one medal is awarded for each course or combination of courses, half courses or semester course.

2. The award of a medal:
   2.1 A medal may be awarded only to a student who has demonstrated special ability and no award will be made if there is no candidate of sufficient merit.
   2.2 No award will be made to any student undertaking the course for a second time.
   2.3 If Senate decides that a medal may be awarded for a course, it must designate the faculty which will make the award. No distinction must be made between students from different faculties undertaking the course.
   2.4 The award will be at the discretion of the Faculty concerned and based upon final examinations or class work or both.

3. Publication of awards: A list of class medallists will be published in December and a supplementary list will be published in April, after deferred examination results are known.

Publications

Acta Juridica

Acta Juridica is published under the auspices of the Faculty of Law of the University of Cape Town. It has appeared annually since 1958, and is the successor to Butterworths South African Law Review (1954-1957). The General Editor is Associate Professor G Bradfield and the Treasurer is Ms K Lehmann.

Responsa Meridiana

Responsa Meridiana is an annual law review published under the auspices of the Student Law Societies of the Universities of Cape Town and Stellenbosch. It first appeared in 1964. It is purely a
student publication, and contains articles of legal interest from both within and outside the Faculty of Law.

**Law Students’ Council**

The **Law Students’ Council (LSC)** consists of nine UCT Law students. Students are chosen to represent the Law Faculty through democratic elections held annually and which occur independently of the Student Representative Council (SRC).

The LSC acts a bridge between staff and Law students on both academic and extra-curricular fronts. We strive to develop a healthy student life above and beyond academic learning.

In achieving these aims, the LSC represents the student body in various aspects of the Law Faculty. Our members echo the student voice on the Faculty Board, Academic Planning Committee, Moots Committee, Community Service Committee, Health and Safety Board, Orientation Committee, Information Technology and Equipment Committee, and Timetable Committee.

Our **Mission** going forward is:  
**Communication:** to facilitate consistent and helpful dialogue between staff and students  
**Integration:** to culture a sense of genuine community within the Law Faculty  
**Representation:** to elevate student-related issues to relevant faculty committees and to create new platforms conducive to hearing and tackling student-related issues  
**Service:** to meeting the academic and social needs of students  
**Leadership:** to build on the foundations laid by past Councils in order to realise long-term goals  
**Legitimacy:** to gain confidence from the student body as an integral part of academic and social life

Our **Vision** going forward is to meet diverse student needs through healthy communication, effective representation and thoughtful leadership.

**Ethics Clearance**

Research that involves human participants or animal use for research or teaching must undergo ethics review, according to faculty-specific guidelines. Review generally entails prior approval of a research proposal by a Research Ethics or Animal Ethics Committee. In cases where prior approval is not appropriate, the research proposal should be subjected to appropriate deliberative procedures, according to faculty-specific guidelines. Research papers, research projects, dissertations or theses that involve human participants or animal use may not be submitted for examination if they have not undergone any ethics review process.
